Hello All,

I just noticed that amendments to Public Works parking and traffic ordinances are before the City Council this Wednesday.

As a result of the Chatsworth Permit Parking issue and compromise, I had offered to suggest some language to replace the limited public notice requirement of Chapter 168 (Permit Parking Provisions), with a public notice process that looks more like that for a zoning variance.

I have attached some suggested language:

1. I've suggested that neighbors within 350 feet receive notice; 300' might be adequate.
2. I've also retained language from the current Chapter 168 to put a notice in an official publication and notify all district councils. I don't know how effect the notice in an "official publication" really is. As for district councils, I would think you would only need to notify affected district councils. In the case of the College Club, that would have been District 8 and D16.
3. Is ten (10) days adequate? There is no time period stated in the language I've lifted from the zoning code.

I submit this email to be received as public hearing testimony for Ord. 11-91. If there is a better way for me to submit it, please let me know. No matter what, I appreciate your consideration,

Jane Prince
