Subject: Objection to assessment #226001
Date: Wednesday, August 12, 2026 7:45:00 AM

Hello,

My name is Tonya Mages, and my property ID is 33-29-22-31-0208.

I meant to come to the hearing this afternoon, but had a family concern to attend to, so I apologize for the late email.

I have several concerns about this assessment, the first of which, is why has it been almost 3 years being billed? It didn't even show up in a search for 2 years. The second, is that I have no proof the work was done. I never had a hang tag, or a knock on my door to tell me not to use my sewer that day to indicate the connections were being replaced, and obviously no visual evidence of the work. And third, while I did sign off to approve the work, my neighbor to the west did not, and they were also assessed, so I have concerns about the record keeping.

Considering how many other aspects of the Gold Line project this group of neighbors had concerns dismissed, and was outright lied to after 2 years of attempted gaslighting from Met Council, it's should not be a surprise for any of us to question the work.

I require proof the work was done before I pay the assessment. That's a lot of cash to fork over, and I doubt any normal person would just pay a contractor for work on their home under any condition on somebody's say so, much less these conditions.

I look forward to hearing back from you.

Tonya Mages
