Record # 11-2090

The City of Saint Paul, pursuant to Chapter 175 of the Saint Paul Legislative Code, is conducting a program for the control of Dutch elm disease, oak wilt, and dangerous trees that threaten the urban forest, and/or the safety of citizens and property. As part of this program, the City Forester or members of the Forestry staff are authorized to enter and inspect private property. It is necessary to locate and eliminate dangerous trees and all sources of Dutch elm disease and Oak wilt, including stumps or woodpiles that contain elm wood or diseased red oak with the bark attached. The City has the authority on both public and private property, to order the removal, disposal or management of diseased trees, dangerous trees, and any materials that contribute to the spread of disease within the City of Saint Paul; and upon failure by the property owner to comply, order the abatement of such nuisance.

Listed below is the location/address where the nuisance exists, the size and the location of the tree(s), stump(s), log(s), or brush which need prompt attention by the property owner. The checked box(s) refer to the specific type of nuisance needing your attention. City inspectors mark trees with a red ring around the trunk and a number that signifies the tree(s) diameter.

IT IS IMPORTANT to note that failure to address the nuisance within the time period specified below will result in the City of Saint Paul issuing an abatement order to perform the work described, with all associated abatement costs billed to the property owner of record. (Chapter 45, Sec. 45.08)

Location: 1770 Burns Ave - 7" dbh tree located east sideyard on the hillside above White Bear Ave., about 70ft south of Burns Ave.

- ☒ **Marked Dutch Elm diseased** or dead elm trees (with tight bark) must be removed and all stumps, wood and brush with tight bark must be recycled, chipped, burned, buried or the bark removed from all exposed wood, **WITHIN ONE (1) MONTH** upon receipt of this notification.
- ☐ **Marked Oak Wilt diseased** trees must be removed and all stumps, wood and brush with tight bark, must be chipped, burned, buried or the bark removed from all exposed wood, **WITHIN ONE (1) MONTH** upon receipt of this notification.
- ☐ **Elm logs, stumps or piles of cut elm wood** or brush must be stripped of all bark or destroyed **WITHIN ONE (1) MONTH** upon receipt of this notification, because they serve as a breeding place for elm bark beetles that transmit the Dutch elm disease fungus which contributes to the spread of the disease.
