

Dear City Council:

I am writing to reiterate my objections to the over-sized off-campus dormitory planned at Grand and Finn.

Pedestrian and auto traffic are already heavy, and parking and noise problems will drastically increase with this dormitory.

Finally, the “tower” would literally tower over a neighborhood of families who have cherished it for generations, and destroy a balance between homeowners, students and other renters. I plan to attend the hearing on June 20 and look forward to your denying the proposal and building.

Thank you for your consideration,

Nick Gardner
