11/04/2002	<a href="#">02 245295</a>	Project Completed	PV - Project Facilitator Review	This applicant, Chris Brackey, is proposing to operate a 2nd Hand Motor Vehicle Sales at this location. No auto repair is planned for this location but Mr. Brackey is proposing to wash and detail the used cars to display them on the lot. Building was recently constructed as a storage building. There now is an office in this building that was not shown on the original plans for the storage building. The building inspector is requesting additional plans for this office use and will be following up on this issue. A site plan was approved by this office for the previous intended use as a storage building. This new development will most likely have affect on the site and will require resubmittal of a revised site plan to document the proposed changes. Issues Property is zoned I-1. A used car lot with auto detailing is a permitted use in the district. Off-street parking and maneuvering for the vehicle display area as well as customer parking that meet the zoning requirements for all the current and proposed uses of the property. Building code issue for the addition of office space in this building (fire separation between the storage and office uses, HVAC upgrade if required for the auto wash and office uses, structural details for the changes to building not addressed in the original plans nor authorized by the original building permit, additional SAC, etc.) Business license for 2nd Hand Motor Veh. Sales is required.
10/09/2002	<a href="#">02 229561</a>	Finaled	M - Mechanical Permit - Refrigeration - Commercial Replace	Contractor Thomas Boehm Boehm Heating Company
