Yes - asked if she heats with solar as well? Yes, flex tubing - like zone heating - wants to assess her ability to handle the things that will be required to be done as things will cost money Mr. Essling: - have not seen the batteries but there's a concern about them dispensing poisonous gas Ms. DeFlorin: - that's why they're in the basement and vented; no major modifications have been done Ms. Moermond: - must figure out the city's best course of action - solar installation needs to be approved; safe storage may be an issue - feels she will have to move out and she can go into the house between 8 am and 8 pm to work on cleaning out things and doing repairs but can not sleep or eat there Ms. DeFlorin: asked if the dog can stay there Mr. Essling: - the dog can be there until it's a registered vacant building Ms. Moermond: - can get a free dumpster from the House Calls Program; wants her to start clean out things - Inspector Essling will work with her on getting the dumpster Mr. Essling: - will talk to the electrical inspector - also an issue of hooking up with Xcel and the financing Ms. Moermond: - will not send to the Vacant Building program and not charge fees as she wants to give her a good chance at doing the work - agrees that she very likely will be required to have electrical service along with the solar - Inspector will check on Monday, August 27

Dear Schmidt Deborah,

Your safety is our No. 1 concern. On 08/28/2012, we made a safety service call to the property address listed above. This safety inspection revealed a potentially dangerous condition exists. Because this condition poses a definite safety hazard, service to the Water Heater was discontinued.

We strongly encourage you to have your Water Heater serviced by a qualified professional immediately.

A copy of this letter may be forwarded to the city/county department officials. Please be advised that in some cases a building permit will be required to make repairs. If a building permit is required, it is the responsibility of your heating contractor and/or repairman to obtain the permit.

If you have any questions or concerns, please contact us at 1-800-895-4999.

Thank you for your business.

Deny the appeal and grant until September 24, 2012 for compliance on the exterior issue. RE: 762 Thomas Ave (single family) Roxanne Kay DeFlorin, tax owner, appeared along with Thomas White, her boyfriend. Inspector Joel Essling: - Summary Abatement Order was issued Aug 17, 2012 with an Aug 21 compliance date - re: storage, refuse, debris mainly in rear yard - since the initial inspection, there is now more storage, refuse and debris than was originally Ms. DeFlorin: - explained that more material was in the yard in anticipation of the dumpster that Mr. Essling said he could get - she feels that she has been thwarted at every move by Mr. Essling and she would like to have him removed from her case - he came to her property smoking a cigarette; she asked him numerous times to extinguish it; in response, he threatened to have a crew out that day to get rid of everything in her yard, her house, including the solar panels; she finds that unprofessional and doesn't believe that kind of behavior is in anyone's best interest - said that Mr. Essling stood outside her house at 10 pm at night (Ms. Moermond said she has not known Mr. Essling to do that) Ms. Essling: - noted that he is no longer the inspector since the house is now a Category 2 Registered Vacant Building; he is here today because of the appeal - Matt Dornfeld will be inspecting - said that he had no clue as to what Ms. DeFlorin was talking about re his being outside her house at night Ms. Moermond: - Mr. Essling was going to provide a phone number for Kay Wittgenstein, House Calls Program, Ramsey County, who may be able to provide a dumpster Ms. DeFlorin: Mr. Essling contacted Kay first and then, when she contacted me, she said that they couldn't get me a dumpster because there was no way that she could pay her bill (meaning her Xcel bill) Mr. Essling: - House Calls Program is designed to assist people staying in their house; they are not going to provide funding to anyone they don't think will be able to stay in their house, in this case, the Xcel bill is \$20,000 Ms. DeFlorin: - Xcel was going to restore power - she hasn't received any information about the city requiring she have Xcel Energy as her power source; according to the city code, she doesn't even have to have electricity for residential; one needs heating and water - things keep happening that she doesn't get notified about Ms. Moermond: - electricity is considered a basic facility and the city code addresses it in Chap. 34 - there were 2 things going on here: 1) electricity; and 2) so many things in the house - the Condemnation, itself has already been decided (Ms. DeFlorin: has not received any email or letter regarding the outcome of the LH or the future Council meeting); Ms. Vang said she emailed the results and information; printed the letter for Ms. DeFlorin - at the last LH discussion, they talked about her dog being at the property; about Ms. DeFlorin having access between 8 am and 8 pm; Ms. DeFlorin was maybe going to stay with her sister but she wasn't sure how that would work out Ms. DeFlorin: - she doesn't know what her steps are supposed to be - she is doing what she thinks she's supposed to do - she has talked to Xcel Energy to get the electricity straightened out - she had no idea that her sister couldn't put Xcel in her name - then, the Inspector comes to her house, threatening her - she is getting over whopping cough; she also has COPD (Mr. Essling ignored her request to stop smoking) - the next thing she knew, they placarded her house a Vacant Building - what time frame did she have to address these issues? - she does have gas; and solar panels are a federally approved source of energy - the most helpful people in this whole situation were those at Xcel Energy - wants to know what are the city's procedures, down to time frames, etc - she believes that she has been totally shafted on this Ms. Moermond: - pulled up the record from the Condemnation - as she understands city code, it doesn't specify that you have to have Xcel but it does say that you have to have an approved electrical set-up and it is leaning to have you on the grid; not that there can't be arrangements with solar and working with Xcel about that - we had talked about storing the solar energy in the house wasn't safe or OK and the system hadn't been reviewed or approved, either - that went to City Council Sep 5, 2012 (the Order to Vacate is done) - on top of the electrical issue is that of all of the material in the house - the Order today has to do with the outside property Ms. DeFlorin: - Ms. Moermond may have told her about the CC meeting but she also said that she would receive information which would explain things, which she didn't receive; she feels that she has been sabotaged at every turn (Mai Vang sent the email Aug 27, 2012 at 2:49 p.m. to rkdeflorin@live.com; she did not get a message that said it was undeliverable); she has been checking her email frequently and she didn't get it - the police have been at her house since then on the pretense that she had kidnapped someone's dog - the stuff in her house is not garbage; it's not junk; some she can get rid of - some stuff outside is broken but she was anticipating having a dumpster - their neighborhood clean-up day is Sat; she will get rid of material then Ms. Moermond: - this isn't just about the usefulness of the items; it's about having just too much stuff - this is about getting the volume down Mr. White: - took Mr. Essling's license plate number the night he was parked across the street from the house - he saw him; it was 9:30 p.m. (Mr. Essling: I've never been there at night; just when it's noted in the file) - Mr. White said he was there waiting for ride; sitting on the front steps Ms. Moermond: - the SA Order is dated Aug 17, 2012, the same day of the Condemnation - the deadline on the SA Order is Aug 21, 2012 for things to be cleaned-up - she will recommend granting an extension to Sep 24, 2012 but it has to satisfy the Department of Safety and Inspections (DSI) - Matt Dornfeld will be the manager in the Vacant Building Program, Ms. DeFlorin's contact: 651/266-1902 Ms. DeFlorin: - she wasn't told how she could get her house uncondemned, which was her focus of the appeal so that it wouldn't go to that next step - there were no time frames - like if such and such wasn't accomplished by this time..... Ms. Moermond: - explained that was in the actual Order she received from DSI; it outlines what needs to be addressed (Ms. DeFlorin: is there a set time frame or it as the whimsy of the inspector?) - the letter

says that the principal violations are no gas or electric and it talks about fire hazard and unsanitary conditions; also lists other things; the letter says this is an Immediate Vacate of the property; then, Ms. DeFlorin filed an appeal; Ms. Moermond recommended giving her a little bit more time (Aug 24) but not much because the circumstances were bad Ms. DeFlorin: - wants to know what was her time frame for working to get things done and if that was accomplished, then, what would be the next step Mr. Essling: - believes the question is when will the property become a Registered Vacant Building - the answer: it is up to the discretion of the inspector but generally speaking, it's going to be within a week of the Condemnation, depending on the situation; if it's a situation where it looks as though the Condemnation is going to be lifted within a week, it won't be transferred over to Vacant Building - cited section of the code that requires electrical service: 34.14 2a - all residential structures and dwelling units shall be supplied with electrical service that is adequate to safely meet the electrical needs of the residential structures and dwelling units in accordance with the electrical code - it would be possible for Ms. DeFlorin to run a house on solar; however, for residential, it's cost prohibitive; you would never be able to get a system installed and approved by an electrical inspector that would fully provide with all the electrical - electrical Inspector Dan Moynihan inspected this property last Fri and determined that the electrical system is not safe to be re-energized; it has to be brought up to code under permit by an electrical contractor; the inspector also stated that all components of the solar system are unsafe and had to be removed - you will get a letter in the mail outline the steps to move forward: 1) need to register the property as a Registered Vacant Building - fill out and sent in - a fee is connected with that; then, 2) a Code Compliance Inspection is required - a team of inspectors go through the house and write up all deficiencies; 3) once you get that list, you can do all the work to bring it up to code; 4) once it's up to code, it will be out of the VB Program; and 5) Ms. DeFlorin can re-occupy it; however, before inspectors can go in and inspect, the house will have to be cleared out (they can't move around and they can't see everything they need to see) - advised Ms. DeFlorin to talk with Inspector Dornfeld if she had any questions about the inspection procedures Ms. Moermond: - Ms. DeFlorin has until Sep 24, 2012 to have the yard cleaned-up; if she has questions about whether or not the yard is cleaned-up enough, she needs to call Mr. Dornfeld and ask him to drive by and take a look and provide feedback Ms. DeFlorin: - asked for a copy of the city's policies and procedures on how they go about inspecting, including time frames regarding all of it (Ms. Moermond: the code is the best document for that) Ms. Moermond: - Order of events: you find yourself to be Condemned with an immediate vacate because conditions were considered to be very bad (unsafe); this is an exercise of the police powers so, it's not in violation of the Constitution; it's saying conditions are that bad - unsafe - her appeal on the Condemnation was denied but she was given an extension of time to vacate - once people are out of the building, and they have lost their appeal at City Council, then, it gets put into the Registered VB Program - because there are violations with this building, it is a Category 2 Registered VB - meaning that you need to bring it up to basic safety codes before it can be occupied - next steps: 1) clean out the house; 2) pay the VB fee; 3) leave a lockbox on the door; 4) apply for a Code Compliance Inspection online; 5) address each deficiency item on the inspection report; - she will ask DSI to hold off on the VB fee for 3 months to give Ms. DeFlorin a chance to get this addressed and get the Condemnation lifted - these steps will be listed in a letter from Mai Vang - her recommendation for the yard cleaning will go before City Council Sep 19, 2012 at 5:30 pm (deadline Sep 24, 2012) - will recommend the VB fee be waived for 3 months - Kay Wittgenstein may have good referrals for temporary housing - appellant will probably need financing for doing these repairs - the electric problem needs to be resolved (Xcel needs to be turned back on or a sound solar system needs to be put into place; right now, there is not a sound, approved solar system in place) Mr. Essling: - explained that no trade inspector will tell someone what it is, exactly, that needs to be done (that immediately makes them liable for anything that is done); it is assumed that the person doing the work (contractor) has the knowledge to know what needs to be done Ms. DeFlorin: - asked if there was a way she could get the fees lowered because it seems that a person gets into this situation because they have fallen on hard times so the city makes it harder (?) - has not seen any kind of report from the electrical inspector (Mr. Essling: he won't be sending a report to Ms. DeFlorin) - they pulled an electrical permit last Thu to have Inspector Moynihan come out to check the meter box - to get Xcel turned back on; the meter box was locked, so he decided to come inside the house and look - she owes Xcel \$11,000

RE: 762 THOMAS AVE
File #: 12 - 103584

Dear Sir or Madam:

The above referenced address has been designated as a Category 2 Vacant Building per Section 43.02 of the Saint Paul Legislative Code.

Section 43.03 of the Legislative Code requires that Category II and Category III vacant buildings be winterized with gas and water services shutoff, or alternatively, that an excess flow gas valve (EFV) be installed after each gas meter servicing the building(s) prior to March 14, 2013.

Please note that the installation of an excess flow gas valve must be performed by a licensed contractor with an approved permit. Further information regarding permits is available at 651-266-8989. Additionally, failure to satisfy this requirement may result in the enforcement officer, under the authority of Chapter 5 of the Legislative Code, to enter the building and to install the excess flow valve(s). The installation cost is estimated to be about \$500 per unit, plus administrative fees. The total cost will be charged against the property as a special assessment and will be collected in the same manner as property taxes.

NOTICE TO REMOVE SNOW AND/OR ICE FROM SIDEWALK

762 THOMAS AVE

File #: 13 161146

Insp: 361

**IF THE SIDEWALK HAS ALREADY BEEN SHOVELED AND CLEARED OF ICE,
THANK YOU AND PLEASE DISREGARD THIS NOTICE.**

Dear Owner and/or Occupant:

We received a complaint that the public sidewalk in front of or on the side of
762 THOMAS AVE

has not been shoveled. The Saint Paul Legislative Code, Chapter 113, requires property owners and/or occupants to clear the sidewalks of snow and ice within 24 hours of the most recent snowfall or ice accumulation. The cleared area must be the full length and width of the sidewalk and sidewalk ramps must be cleared to the street. If the walk is covered with ice, please salt and sand as needed.

To ensure compliance with the ordinance, a Code Enforcement Officer will inspect the sidewalk 48 hours after the postmark on this letter. If the snow and/or ice has not been removed by this date, the enforcement officer will schedule a City work crew to immediately do the work. The cost of snow removal is **\$160 per hour with a ½ hour minimum; sand and salt is \$80 per hour with a ½ hour minimum.** This fee plus administrative costs will be added to the special assessments against the property, to be paid with the real estate taxes.

Your cooperation in clearing the snow will be appreciated by many citizens, in particular, seniors, children and people with disabilities. If you have any further questions regarding this notice or if you no longer own this property, please call the Code Enforcement Office at 651-266-8989.

Sincerely,

Department of Safety and Inspections, Code Enforcement

***WARNING** Code inspection and enforcement trips cost the taxpayers money. If the violations are not corrected within the time period required in this notice, the city's costs in conducting a reinspection after the due date for compliance will be collected from the owner rather than being paid by the taxpayers of the city. If additional new violations are discovered within the next following 12 months, the city's costs in conducting additional inspections at this same location within such 12 months will be collected from the owner rather than being paid by the taxpayers of the city. Any such future costs will be collected by assessment against the real property and are in addition to any other fines or assessments which may be levied against you and your property.

The costs of this action, including administrative costs and demolition costs will be assessed against the property taxes as a special assessment in accordance with law.

As first remedial action, a Code Compliance Inspection Report must be obtained from the Building Inspection and Design Section, 375 Jackson Street, Suite 220, (651) 266-8989. This inspection will identify specific defects, necessary repairs and legal requirements to correct this nuisance condition. You may also be required to post a five thousand dollar (\$5,000.00) performance bond with the Department of Safety and Inspections before any permits are issued, except for a demolition permit. Call the Department of Safety and Inspections for more information at 651-266-8989.

If this building is located in a historic district or site (noted on page 1, above, just below the property address) then you must contact Heritage Preservation (HPC) staff to discuss your proposal for the repairs required by this order and compliance with preservation guidelines. Copies of the guidelines and design review application and forms are available from the Department of Safety and Inspections web site (see letterhead) and from the HPC staff. No permits will be issued without HPC review and approval. HPC staff also can be reached by calling 651-266-9078.

As an owner or responsible party, you are required by law to provide full and complete disclosure of this "Order to Abate" to all interested parties, all present or subsequent renters and any subsequent owners. The property shall not be sold, transferred or conveyed in any manner until the Nuisance Conditions have been abated and the Certificate of Code Compliance or Certificate of Occupancy has been issued.

The Enforcement Officer is required by law to post a placard on this property which declares it to be a "nuisance condition", subject to demolition and removal by the City. This placard shall not be removed without the written authority of the Department of Safety and Inspections, Division of Code Enforcement. The department is further required to file a copy of this "Order to Abate" with the City Clerk's Office.

If corrective action is not taken within the time specified in this order, the Enforcement Officer will notify the City Council that abatement action is necessary. The City Clerk will then schedule dates for Public Hearings before the City Council at which time testimony will be heard from interested parties. After this hearing the City Council will adopt a resolution stating what action if any, it deems appropriate.

If the resolution calls for abatement action the Council may either order the City to take the abatement action or fix a time within which this nuisance must be abated in accordance with the provisions of Chapter 33 of the Saint Paul Legislative Code and provide that if corrective action is not taken within the specified time, the City shall abate this nuisance. The costs of this action, including administrative costs will be assessed against the property as a special assessment in accordance with law.
