

NEIGHBORHOOD PETITION TO THE SAINT PAUL MN CITY COUNCIL REGARDING THE SHEPARD ROAD (USBANK SITE) PROJECT

Neighbors are in favor of a development at the USBank Site—one that beautifies and enhances the values of the neighborhood; however, neighbors have two major objections to the proposed development plans:

- Neighbors oppose a variance to the height restriction on the River Corridor: construction should stay within the maximum 40-foot above-ground rule.
- Neighbors strongly oppose the re-routing of Shepard Road to Norfolk/Stewart Avenues and making it a 5-lane exit off of Hwy 5.

My signature below shows agreement to these three statements.

NEIGHBORHOOD PETITION TO THE SAINT PAUL MN CITY COUNCIL REGARDING THE SHEPARD ROAD (USBANK SITE) PROJECT

Neighbors are in favor of a development at the USBank Site—one that beautifies and enhances the values of the neighborhood; however, neighbors have two major objections to the proposed development plans:

- Neighbors oppose a variance to the height restriction on the River Corridor; construction should stay within the maximum 40-foot above-ground rule.
- Neighbors strongly oppose the re-routing of Shepard Road to Norfolk/Stewart Avenues and making it a 5-lane exit off of Hwy 5.

My signature below shows agreement to these three statements.

	Printed Name	Signature	Today's Date mm/dd/yy	Address	Email address (optional: to receive future bulletins on this project)
