**INFORMATION ABOUT YOUR BILL**

For this month only, the Resource Adjustment has decreased due to changes in the Renewable Energy Standard (RES) Rider, which recovers our investments and expenses to add renewable energy systems to our generation resources. To return excess collections, the RES Rider portion of the Resource Adjustment is negative 2.280% of these charges on your bill: basic service charge, energy charge, and demand charge.

This month's Resource Adjustment includes an increase in the Transmission Cost Recovery Adjustment (TCR) which recovers the costs of transmission investments, including delivery of renewable energy sources to customers. The TCR portion of the Resource Adjustment is \$0.003236 per kWh for Residential customers; \$0.003073 per kWh for Commercial (Non-Demand) customers; and \$0.906 per kW for Demand billed customers.
