Footnotes:

To see the Legislative Code go to www.stpaul.gov on the internet, click on "Departments", then click on "Department of Safety and Inspections", scroll down the page for the "Codes". Most Correction Notices derive from Chapter 34.

² Criminal charges can be brought on the day the violation is observed, but generally we allow time to correct unless this is a repeat violation.

ps

WARNING Code inspection and enforcement trips cost the taxpayers money. If the violations are not corrected within the time period required in this notice, the city's costs in conducting a reinspection after the due date for compliance will be collected from the owner rather than being paid by the taxpayers of the city. If additional new violations are discovered within the next following 12 months, the city's costs in conducting additional inspections at this same location within such 12 months will be collected from the owner rather than being paid by the taxpayers of the city. Any such future costs will be collected by assessment against the real property and are in addition to any other fines or assessments which may be levied against you and your property.
