

3 December 2015

Mr. Butch Inks
St. Paul Fire Department
645 Randolph Ave
Saint Paul, MN 55102

Dear Mr. Inks,

We currently have in our possession a large quantity of hazardous material protective equipment for which we no longer have a need for. Since the St. Paul Fire Department would respond if a hazardous material emergency would occur at our facility, we would like to donate this equipment to you.

We have maintained this inventory of equipment for years and we are unsure of its integrity. Although it has never been used, we suspect that some of it may be unusable in real emergency situations. Therefore, we recommend to use the donated equipment for training purposes. We estimated the value of this donation to approximately \$100.00.

In the event that you are interested in this donation, please contact me at the number listed below.

Regards,

Myriam Trepanier, EHS Coordinator
