Subject: Anti-trump resolution

St. Paul has gone crazy or at least one of your council members has. You can't ban someone from a city! That council member is seriously not in touch with American laws. I'm embarrassed to be from a state whose residents elected someone so uninformed.

Really, if this is even taken up next week, you guys have problems. Minnesota is viewed as a terrorist breeding ground....but we don't address behavior....just words. Look into our laws, councilman Tao.
