Subject: American right.

I realize that Minnesota is a liberal Democrat State. I know that you do fear Donald Trump more than you do Isis coming to St Paul. He is asking after what happened in California that we have a hold on Muslims coming here tell we find a better way to check them out before they come here. He is one of the few running for office that value the safety of our country than the desire of Muslims. Trump is the highest in the polls of all those running for office. Jimmy Carter held people from Iran from coming here during the Iran Crisis.

All those in 9/11 were came here legally. One of them was in Minnesota and he was trying to learn how to fly a plan. He just wanted to learn how to fly in the air and stir and nothing else. She called the FBI and no one listened ... If they had listened 9/11 planning could have been stopped.

Some people in Minnesota are changing their lives because of the changes in our country. I have told my daughter to stay out of the MOA. I have one granddaughter working there and I fear for her. I met a young girl who just left Faribault because she was afraid to live there. My husband's brother lived in St Paul and at 60 year old he uses a walker because his hip was broke by muslim and left laying near his apartment. I have met many wonderful immigrant in Minnesota that I have made friend with. They left China, Korea, Mexico, India looking for a better life in Minnesota. They work hard and are polite and kind. They want a safe place to live also.

Fearful in MInnesota.
Diane Johnson.
