Subject: A Safer Solution

Marcia,

Thank you for hearing me out yesterday at the hearing. I appreciate you taking the time to study our situation further.

We also would like to make a proposal as well, to how we might seek a solution to creating a safer workplace.

In light of that proposal, I would like to know if **ever,** a variance other than the one we have has been issued, by the Fire Inspectors Office has been issued with greater latitudes then ours? We should be able to have our proposal done within the next two to three weeks. We have already reached out to several Governmental entities in Ramsey County and the City of St Paul for input as to how to resolve these issues.

We will continue the resolution to the issues that can be handled on a more immediate basis. As I mentioned we had our maintenance man quit without notice, so we are contacting outside sources of assistance in some of these matters that we no longer can handle in house. Financially, this places more pressure on our company but, we will move forward.

Jeff Otto
