Subject: Minnesota United Stadium

Councilor Stark,

I am writing to let you know of my support for the proposed soccer stadium that Minnesota United is planning to build on Snelling and University. I am currently studying abroad but I lived in the Hamline-Midway Neighborhood before this semester and look forward to moving back to your ward when I return.

I am a season ticket holder to MN United and look forward to attending games a short walk away in the near future. I hope to see your support for this great project for the neighborhood and surrounding area.

The area is on the upswing due to the addition of the Green Line and the soon to open BRT. I look forward to the new opportunities this project could bring.

Thank you for listening,
Jon Lundberg
