Subject: Garbage collection

Hi Mr. Bostrom,

I wanted to reach out to you and let you know that I appreciate my right to select my own garbage company. My garbage company Garbageman answers my calls, drives through our small alley, takes care of the environment and works each day to provide excellent service. We have never had a problem with them.

Please consider this as you talk with council members about providing city wide garbage collection.

Thank you,

Aubrey Hendry

Opposed to organized trash. The City shouldn't dictate what we should do. We can organize ourselves, and we do.
