Job Title: Service Engineer

Why are you interested in serving on a board or committee?

Being a resident and sitting board member representing St Paul's East Side I would like to gain a better understanding of how the Police Civilian Review Commission works, doesn't work.

What skills/training or experience do you possess for the committee(s) for which you seek appointment?

As an engineer, when confronted with a problem it is my job together the necessary facts and data to facilitate a solution. As a member of the St Paul District 2 Community Council Board, I evaluate the various projects and issues that directly affect the community, and with the other board members, decide the best course of action. I'm also a recent graduate of the 23rd St Paul Citizens Police Academy.
