Subject: ADUs

We are firmly opposed to ADUs in North St. Anthony Park. We live four blocks from the St. Paul Campus of the University of Minnesota. Residential housing a block and sometimes two blocks from campus consists of many units that are not well maintained, similar to the larger area around Dinky Town on the Minneapolis Campus. We do not wish to live in such an environment. ADUs originally built for family members will, in many cases, become rented student housing. Even if that is deemed illegal, it will be very hard to enforce. This is a very nice community and shoe-horning additional housing will make it less desirable.
