

## **Heritage Preservation Commission – Recommended for Appointment October 2016**

### **Casie Radford**

**Employer:** Preservation Design Works

**Job Title:** Historical Architect

#### **Why are you interested in serving on a board or committee?**

I would like to have input on matters involving historic buildings or properties and be able to use my experience to interpret and influence historic preservation design. I also want to be more involved in and aware of preservation in St. Paul, as well as have a larger presence in the city overall. I believe the HPC to be a good opportunity to grow my network and become a familiar face and resource.

#### **What skills/training or experience do you possess for the committee(s) for which you seek appointment?**

I meet the Secretary of the Interior's Professional Qualification Standards (36 CFR Part 61) in Architecture and Historic Architecture. I have nine years of practical preservation experience between Colorado and Minnesota, including familiarity with the Standards, and currently work for PVN, a unique historic preservation consulting firm that specializes in keeping historic buildings and properties in use. I am licensed in four states and also have experience with commercial and industrial design build projects. I am a resident of the Dayton's Bluff Historic District and believe in appropriate preservation measures to protect and maintain the historic assets throughout the City of St. Paul.
