Dear Council Member Dan Bostrom,

A complete take over of garbage service in Saint Paul is far more complicated and not something city hall should be involved in. We object to City appointees efforts to create a government-run, one-size-fits "solution" for every home dictating costs and service level arrangements.

This is the wrong idea at the wrong time. A takeover of garbage takes the choice away from homeowners, puts companies out of business, and employees out of work. Saint Paul should be focusing its time and energy on skyrocketing skyway and gun crime, balancing the city budget, fixing rec centers, and recruiting new businesses and jobs.

The City shouldn't fix something that is not broken!

This is the dumbest thing ST Paul has ever tried to do! Focus on homeless people or the dumb protesters or something more important!

No doubt union driven. Cost over time for taxpayer will escalate. Time to get out of St Paul.

I do not need extra items picked up. I need a small cart and garbage picked up every other week. I also do not need leaves picked up, I am capable of taking them to the compost. I understand that garbage dumping is a problem, but I feel that this will not fix that problem. Many of us live on fixed incomes and cannot afford to subsidize the garbage needs of larger families.

The new recycling should have been rolled out much better than it was. I don't think having the government take over private trash collection should ever be done. I want less government control over my life, not more.
