Address: 2745 Hilo Ave N

Relationship to LMAP: an LMAP employee, a supporter of public education in St. Paul

I am writing to express my strong support for the two zoning variances that Linwood Monroe Arts Plus has been granted to be able to bring both of its buildings into the twenty-first century. The major revisions to the plans that SPPS has made based on community input since the initial plan was announced in March 2016 have made it dramatically better, and the new plan will create a much better learning environment for the school's students and teachers. As someone who believes in the importance of a vibrant public education system, I hope that you will uphold both variances as they have been granted.

Sincerely,

Stephanie Hubbard

I would like to thank you for your service, and am grateful for the work that you do. I am writing to express my support for the proposed upgrades to Linwood Monroe Arts Plus facilities on both

campuses. The addition to the Lower campus (Linwood) building will allow the school to make a number of essential updates, such as making both buildings accessible for students with limited mobility, bringing undersized classrooms on both campuses up to size standards, and moving four-year-old pre-K students and nine-year-old fourth graders out of the middle school environment into the more appropriate environment of the elementary school. The addition will also increase the amount of available dedicated play space by over 1,000 sf and give students the dedicated place they currently do not have to play inside on bad weather days. At the Upper school (Monroe), where some classrooms are only half the size that SPPS standards call for, all classrooms will be brought up to adequate sizes. I strongly support the two zoning variances that Linwood Monroe has been granted to be able to bring both of its buildings into the twenty-first century, and appreciate the willingness of SPPS to adjust its plans by making several major revisions based on community input. As someone who believes in the importance of a vibrant public education system, I hope that you will support them, too.

Please follow longstanding precedent where our city routinely grants reasonable requests for variances to our schools.

Sincerely,

Mary Szondy

Saint Paul born, raised, and standing. Central '95. No time for anyone standing between children and their much needed school improvements. Give them their variances, fix their school, then go fix another one.

Sincerely,

felix buckley-jones

I was a SPPS student. I graduated in 2010. I value all of the representatives who in the past worked hard to support students like me. Now, I hope that you will support the current SPPS students by ensuring that they have a proper place to learn and grow. Thank you for advocating for the SPPS children.

Sincerely,

Kate Siess

I strongly support the two variances granted to Linwood Monroe Arts Plus to bring buildings on both of its campuses into the 21st century. As a supporter of public education in St. Paul, I encourage you to as well.

Finding another site to meet the needs of a neighborhood school is not as easy as BZA member Diane Trout-Oertel makes it sound when defending her vote to appeal the LMAP expansion. Everyone likes sunlight in their home. And we all want to live in a community that thrives. I feel that a public school system that meet the needs of all makes or breaks a community. The quality of education we provide our children is an investment in our future. To do this we must have the facilities in which to operate. I don't think many people were thinking about sunlight and open space when the decision was made to put the freeway through the Rondo neighborhood. Let's do the right thing for our current student body and students that will come in the future and vote to support the expansion of the LMAP Lower campus.

Sincerely,

Linda Zwicky

Relationship to LMAP: an LMAP parent, a supporter of public education in St. Paul

I would like to thank you for your service, and am grateful for the work that you do. I am writing to express my support for the proposed upgrades to Linwood Monroe Arts Plus facilities on both campuses. The addition to the Lower campus (Linwood) building will allow the school to make a number of essential updates, such as making both buildings accessible for students with limited mobility, bringing undersized classrooms on both campuses up to size standards, and moving four-year-old pre-K students and nine-year-old fourth graders out of the middle school environment into the more appropriate environment of the elementary school. The addition will also increase the amount of available dedicated play space by over 1,000 sf and give students the dedicated place they currently do not have to play inside on bad weather days. At the Upper school (Monroe), where some classrooms are only half the size that SPPS standards call for, all classrooms will be brought up to adequate sizes. I strongly support the two zoning variances that Linwood Monroe has been granted to be able to bring both of its buildings into the twenty-first century, and appreciate the willingness of SPPS to adjust its plans by making several major

revisions based on community input. As someone who believes in the importance of a vibrant public education system, I hope that you will support them, too.

Sincerely,

Rhonie Waldron

Relationship to LMAP: a supporter of public education in St. Paul

I am writing to express my strong support for the two zoning variances that Linwood Monroe Arts Plus has been granted to be able to bring both of its buildings into the twenty-first century. The major revisions to the plans that SPPS has made based on community input since the initial plan was announced in March 2016 have made it dramatically better, and the new plan will create a much better learning environment for the school's students and teachers. As someone who believes in the importance of a vibrant public education system, I hope that you will uphold both variances as they have been granted.

Sincerely,

Kook Pyo Hong

I strongly support the two variances granted to Linwood Monroe Arts Plus to bring buildings on both of its campuses into the 21st century. As a supporter of public education in St. Paul, I encourage you to as well.

Public education is a bedrock of our United States. With the current head of the Department of Education, Betsy DeVos, and her disdain for public schooling, it is especially important to support this effort to improve our public education in our local communities.

Sincerely,

Robert Wangsness

With your long history in education and school equity I'm confident that you will support the two barriers that have been granted to Linwood Monroe Arts to make both campuses, which educate one of the more unique and diverse populations in SPPS, equitable to other schools in the state. Thank you, again, for your dedication, hard work and support of this amazing school in your ward!

Sincerely,

Dionne Reinhart

Having moved to St Paul a few years ago I am in love with St Paul and all it offers. Number one is the fantastic education I see my grandchildren receiving. Please support the Linwood Monroe variances. We can not let our community be sabotaged by obstruction. Let it be a vibrant wonderful community that continues to move forward.

Sincerely,

Diana Wangsness

As an associate dean at St. Catherine University, I have been involved in education for over 20 years. In that time I have seen first hand the value of diversity and the powerful and positive impacts it has on a neighborhood. By allowing the LMAP expansion to proceed, after much thoughtful negotiating and process with ALL stakeholders, you will be securing not only the future of the students who attend, but for the neighbors who now vehemently oppose.

Sincerely,

Mark Blegen

I strongly support the two variances granted to Linwood Monroe Arts Plus to bring buildings on both of its campuses into the 21st century. As a supporter of public education in St. Paul, I encourage you to as well.

The two zoning variances are essential for Linwood Monroe Arts Plus to continue to provide the top-quality education for which the Saint Paul Public Schools are known. As a developmental psychologist, I know that research suggests that school facility quality is linked to higher student attendance and achievement (e.g., see Durán-Narucki, 2008 and Maxwell, 2016). And as a resident of St. Paul, I know that high-quality public schools benefit the entire community. Initially, the opposition to these variances brought up some valid points (e.g., aesthetics, green space), but the revised (current) plans completely address these concerns. I hope that you will support the requested variances, too. Thank you for your service.

Sincerely,

Cari Gillen-O'Neel

I would like to thank you for your service, and am grateful for the work that you do. I am writing to express my support for the proposed upgrades to Linwood Monroe Arts Plus facilities on both campuses. The addition to the Lower campus (Linwood) building will allow the school to make a number of essential updates, such as making both buildings accessible for students with limited mobility, bringing undersized classrooms on both campuses up to size standards, and moving four-year-old pre-K students and nine-year-old fourth graders out of the middle school environment into the more appropriate environment of the elementary school. The addition will also increase the amount of available dedicated play space by over 1,000 sf and give students the dedicated place they currently do not have to play inside on bad weather days. At the Upper school (Monroe), where some classrooms are only half the size that SPPS standards call for, all classrooms will be brought up to adequate sizes. I strongly support the two zoning variances that Linwood Monroe has been granted to be able to bring both of its buildings into the twenty-first century, and appreciate the willingness of SPPS to adjust its plans by making several major revisions based on community input. As someone who believes in the importance of a vibrant public education system, I hope that you will support them, too.

Thank you so much for giving your attention that means so much to our family!

Sincerely,

Julie Kendle
