Hey Shari,

Can you add this email to the council packet for the seiger rezoning case tonight. He already sent a comment for the zoning committee but he sent me another email for the council hearing as well.

Thanks,

Anthony Johnson

Dear Mr Johnson,

I received another rezoning notice in the mail for 816 Ashland so I am sending another response. All of my previous objections still stand and Mr Sieger has recently informed me that he intends to add a second, 2-car garage directly behind my house. I now expect 2 structures with a total of 4 garage stalls and a two-car parking pad. This is a quiet, residential area. When we purchased, we had no reason to expect the future would bring an apartment building behind us with 6 cars worth of alley traffic and transient renter activity.

I am vehemently opposed to this rezoning request.

Thank you,

Ed

> I live at 813 Holly Ave which is on the opposite side of the alley to 816 Ashland. I am unable to attend the re-zoning hearing on 02 MAR 17. I oppose the rezoning proposal for 816 Ashland to RT2 townhouse residential. My opposition is for the following reasons:

>

> 1. INADEQUATE ROOM FOR ALLEY PARKING. As a duplex, 816 Ashland has held 5 or more tenants on the upper floor alone. This creates vehicle maneuvering constraints and excessive traffic in a tightly restricted section of the alley. Adding another parking pad to the backyard will create additional vehicle maneuvering hazards and jeopardize safe passage through the affected part of the alley.

>

> 2. TRASH BUILD-UP. As a resident at 813 Holly since 2010, I have seen mattresses, furniture and electronics left next to the garage at 816 Ashland by departing tenants that trash haulers would not remove as part of their weekly service. I have had to dispose of a discarded TV set myself, at my expense. My wife had to call the landlord to have a discarded mattress removed. Existing trash receptacles make maneuvering a vehicle in this tight part of the alley difficult. Adding a third unit to 816 Ashland has the potential to exacerbate this unsafe condition.

>

> 3. NOISE. We have heard excessive noise, music, screaming and profanity from the upper unit. Disturbing the peace and exposure of this nature to the small children in this neighborhood is concerning. Adding a third unit to 816 Ashland has the potential to exacerbate this undesirable condition.

>

> 4. SNOW AND ICE REMOVAL. Because of the existing parking configuration and lack of free surface area to displace snow and ice, the area behind 816 Ashland and 813 Holly becomes a sheet of packed snow and ice early in the winter season and remains that way until a spring thaw. An additional parking area in the back of 816 Ashland is likely to worsen the hazardous ice and snow in the alley.
