Subject: Very supportive of Org Trash Collection

Dear Chris: we are longtime residents of St. Paul and delighted to see the City moving forward with organized trash collection. We are especially interested in the environmental benefits -- reduced air and noise pollution. We were a bit disappointed to see apartment buildings exempted from the plan, given there are so many apartments in St. Paul. But this is a great victory for common sense nonetheless.

Thank you for your support for the initiative.

Subject: Support for Coordinated Trash Collection

Hello,

I am a St Paul resident (Ward 3) writing in support of city-wide coordinated trash collection.

Nearly every other city in the country has figured out that organized trash hauling is the way to go: cheaper, better for the environment, easier for new residents, and so on. Saint Paul is no different, and I am thrilled to see you were able to work out a plan with so many benefits for residents.

Please approve the Coordinated Collection plan so we can join the rest of the country in enjoying these benefits.

Sincerely,

Hillary Frazey

Subject: Wrong Idea, Wrong Time

Dear Council Member Chris Tolbert,

A city takeover of the garage system is a complicated process and an overstep by the City of Saint Paul. It's the wrong idea at the wrong time. I object to the City's efforts to create a one-size-fits "solution" for every neighborhood and resident.

This constraining system will take choice away from homeowners, endangers companies' operations, and put employees out of work. Saint Paul should be focusing its time and energy on the skyrocketing skyway and gun crime, balancing the city budget, fixing rec centers, and recruiting new businesses and jobs.

Please listen to your constituents and stop this unnecessary government overreach.

The City shouldn't fix something that is not broken!

unless this service is provided with no additional increases to my taxes, I do NOT want the city choosing my provider.

City run program tends to be expensive and ineffective service historically.

Local Haulers know local best than local government with political appointees.

Monopoly business is poor answer and government have no incentive to improve while local haulers with profit incentives tend to improve effectively.

I like the service I get from Highland Sanitation and really do NOT need the City to mess that up, too. Maybe alleys need to get 1 hauler for the alley as we have on our block and even get a discount. It is not like the alleys are a priority in St. Paul. No signs for children in alleys, no lights unless private pay, and little maintenance..

We are senior citizens in this city and lived in this area for over 50 years, This undertaking by the city of St. Paul is an affront to me and my neighbors. We have a great trash collector now in Highland and do not wish to have to change to a collector we had before and were not happy with. We hope that this nonsense can be over with and life can continue on as before. Thank you.

Telephone Call to Ward 5

Opposed to Coordinated Trash Collection.

- About protecting the streets; however currently 6 hauler trips per week versus School Buses that are doing 7, 8, or 9 trips twice daily
- Doesn't want to lose his hauler
- Likes the quarterly billing that his current hauler has – doesn't want a monthly billing
- What about cart costs? Cart provided by his private hauler – expects that may not be the case with coordinated collection
- Expects that other fees will be charged to residents for “administrative” fees – more taxes!
- Why fix something that's not broken?

I can already see how this would work. The first year the rates will be super cheap, the next year the rates will be sky high because the city will realize that they are losing money on this heavy handed tactic. Nothing like taking away my freedom of choice and forcing me in to something I do not agree with.

DO NOT support this effort by the City of Saint Paul to micro-manage citizens and businesses.. Focus more on fixing the infrastructure of the city like roads, bridges, government over-spend tactics, etc.

As resident of the Payne-Phalen neighborhood, using EME garbage service, I do not wish to change my hauler nor do I wish to have my garbage service chosen for me or dictated to me by the city of St. Paul.

Please focus your energy on making this community safer, healthier for the residents, as well as creating jobs in our community. For example, the vacant lot on the SW corner of Maryland and Payne avenues

would be a lovely site for a small Aldi's grocery store. Not only would the store provide jobs for people in the community but, they would offer a much needed affordable shopping experience for us as well. While I do enjoy the many new restaurants, like Caydence coffee shop and restaurants such as Magnolia's, Ward 6, Eastside Thai, La Taqueria, Sonjia's, Tongue in Cheek, San Miguel's, Bon Bon's, and Brunson's, I do feel that we need grocery store on our area. We don't have a local grocer that would appeal to all residents as well as offering goods in our price point.

I know this is a bit off topic but, I thank you for taking this matter under consideration. You have successfully assisted me in the past and I have every confidence that you will continue to represent all of us, in our best interest, here in the Payne-Phalen neighborhood.

Sincerely,

Linda Desenclos

The City shouldn't fix something that is not broken!

To the Saint Paul City Council:

It is with great displeasure that I find myself having to state the case of where government, again, feels it is their "right" to encroach on private business. Whenever this happens, it most often becomes a major "trial & error" plan, aka, Saint Paul's recycling program. I opted out of the program and it still costs me \$35.00/yr. How is this fair to the citizens you were elected to represent. Every program leads to increased costs, which then translates to costing the citizens of Saint Paul! I challenge you to show me any project/ program, previously operated by private industry, that was "taken over" by a government entity that now or has reduced operating costs, streamlined operations, or has not turned it into a convoluted mess. This encroachment has nothing to do with helping the citizens of Saint Paul to have a better refuse collection process. What it has to do with designing a plan is to satisfy "The Few" at the expense of the many! Please focus on taking care of the programs/ projects that are currently broken or are in disarray! Leave the garbage collecting industry alone!

Dear Council Member Amy Brendmoen,

A city takeover of the garage system is a complicated process and an overstep by the City of Saint Paul. It's the wrong idea at the wrong time. I object to the City's efforts to create a one-size-fits "solution" for every neighborhood and resident.

This constraining system will take choice away from homeowners, endangers companies' operations, and put employees out of work. Saint Paul should be focusing its time and energy on the skyrocketing skyway and gun crime, balancing the city budget, fixing rec centers, and recruiting new businesses and jobs.

Please listen to your constituents and stop this unnecessary government overreach.

The City shouldn't fix something that is not broken!

Please concentrate on controlling government spending.

Subject: Trash collection

Dear council members,

I would like to voice my opinion regarding trash hauling in St. Paul. We currently enjoy having our own private trash hauler. The competition between companies creates a good environment for the homeowner as far as service and cost. My wife and I moved from Minneapolis four years ago and have adopted to both systems of trash collection. In Minneapolis the city provides service for homeowners as part of property taxes (as well as alley plowing which I think St. Paul should provide). I think the city becoming a middle man between the homeowners and the trash haulers becomes a slippery slope. It also adds a layer of cost that was not there before the change. I think the city should either leave the situation as is or take it over all together.

Sincerely, Kevin Spaeth

Subject: Coordinated Collection

The proposal will QUADRUPLER my costs for trash pickup for the year. I support the city *trying* to find a solution, but QUADRUPLING my costs by not allowing neighbors to share trash bins is a huge failure and speaks poorly of the city council. I didn't really want or expect this to be a big issue, but this is fast becoming one. Honestly, as a lifelong Democrat, I'm exceptionally disappointed and am seriously considering my options next election if this is the best you can do. It's basically every Republican talking point come to life: "big government taking away choices and making things MORE expensive." How brain dead do you have to be to force this down our throats without some options for homeowners to work together?

Subject: Support for Coordinated Trash Collection

Hello,

I am a St Paul resident (Ward 3) writing in support of city-wide coordinated trash collection.

Nearly every other city in the country has figured out that organized trash hauling is the way to go: cheaper, better for the environment, easier for new residents, and so on. Saint Paul is no different, and I am thrilled to see you were able to work out a plan with so many benefits for residents.

Please approve the Coordinated Collection plan so we can join the rest of the country in enjoying these benefits.

Sincerely,
Hillary Frazey

Subject: I support centralized trash collection - the sooner the better

Thank you for your efforts to centralize trash collection in St. Paul.

I read the recent proposal and support it. This should have been done years ago.

I work at a school on the east side. We constantly have people dump their trash on the school grounds or in our dumpster and then we have to pay to dispose of it. We have had electronics, appliances, tires, mattresses and other trash left on school property. In the alley where I live, we have had

people dump furniture which then the city has to clean up. And just two blocks from my house there is a little travelled street with no houses on it which is a favorite dumping ground for large objects. All citizens of the city have to pay for cleaning this up and the new proposal looks like it may address some of the causes for illegal dumping.

The centralized proposal includes mandatory pickup for every household, thank you.

Thank you for your hard work on this. I know you will mostly get complaints about the proposal. I believe that there are many citizens who will support this but not contact you. Change is not easy for some people, they don't realize that this is a better plan for all.

Sincerely,

Terri Ausen

Subject: coordinated trash collection

Hello,

I'm extremely disappointed that my trash collection service R&M will no longer be able to work for us within the year. They have ALWAYS provided consistent and high quality service. Their prices are reasonable and they are flexible and pleasant to work with and will take most large items.

When I first moved to St. Paul 13 years ago, I had never lived where there were independent trash collectors.

I wasn't sure I would like this. But R&M have been the best trash collection company I had ever dealt with. I've had no complaints with them.

It's too bad this city doesn't seem to allow independent thinking and problem solving. It just seems like you just have to go along with whatever the majority political culture dictates. I never responded to the initial requests for opinions on this matter, because I felt it didn't really matter what I thought. But I'm angry after getting this SHA email. The city doesn't recognize quality small businesses.

I also hope that City Council works more with the police on crime prevention in our neighborhood. The fight

incident on May 9th at Linwood should never had happened. Everyone seems to pretend it never happened.

What is being done to make sure it doesn't happen again? How did this happen in the first place? I hope

you are truly supportive of the police doing their job to help keep our neighborhood safe. If not, many of us high paying tax payers may choose to live elsewhere.

Subject: All in trash

Hi!

As a St. Paul resident (and homeowner, for what it's worth) I am very excited about and in favor of the idea of a unified city trash service/coordinated collection. I'd be okay with paying slightly more to minimize the traffic (I'm also a mom of two small kids) and reduce the wear and tear on alleys etc.

Thank you!

Subject: Coordinated garbage collection

Dear Saint Paul City Council:

Today I read with great happiness that the city has reached an agreement for coordinated garbage collection with the group of garbage collectors. It is so exciting that the city has made this move toward coordination, which will reduce noise, pollution, and alley and street wear and tear. It's about time. A great move. Our current system is highly inefficient--finally we'll have a system that makes sense. Thank you so much.

Subject: Opt out

Dear Saint Paul City Council,

I am writing this email to urge you to discontinue your pursuit to micro-manage residents' lives. If you want to make sure refuse is taken care of, there are other ways of doing so. Please do not restrict my freedom of association by requiring me to do business with a refuse provider I may or may not approve of.

I am an adult and can choose the best service for the best price on my own. The savings proposed will never happen and at most people will see fewer trucks on the road. As a father of 4 children, I see this reduction in truck traffic as a trivial benefit (as in there will be no tangible increase in safety).

I would like the ability to opt out of any forced trash collection agreement you may come up with.

Mike Huehn
