Provide parents with tools to promote literacy among youngest children.

\$50,000 provided for Read, Talk, Sing early learning initiative.

Young children's brains develop most rapidly between birth and age 3. SPPL seeks to help parents improve basic literacy-building skills with their pre-schoolers through a variety of approaches that encourage reading, singing, talking and more. Parents and children will receive books and track reading progress (1000 Books by K); they may sign up for age-appropriate 3x weekly literacy messages by text; they will experience increased and varying opportunities for language-building play experiences in libraries; and staff will work with diverse communities to make storytimes more effective.. Funding supports book purchases, materials and staff training, collaboration with diverse communities.

Grant Funding

FTE History

Innovation

What innovations has your department accomplished in the last year and what further improvements are planned for 2018 and beyond? If your department has worked on projects with the Innovations Team, please describe them.

2017

- Library Go approach: Efficient and well-used; a state model for implementation
- New annual plan process with goals, measures used by all libraries, teams.
- Staff restructure to provide public service leadership.

Innovation Team

- New annual plan template (using service performance management structure).
- Committee Chair training.
- Several department planning, roles, structure meetings.

2018

- New strategic plan (consultation from Innovation Team).
- Begin expansion of Library Go to charter & private schools.
- New database for library data, Federal reports, open data portal, funded through the Citywide Technology and Innovation fund.
- Investment in Hot Spots through the Citywide Technology and Innovation fund.

Cost Saving Efficiency

What cost-saving efficiency has your department implemented and what is the estimated annual \$ savings? Are there further improvements planned for 2018 and beyond, what is the estimated annual cost savings?

SPPL has been converting lighting to LED, but this has been over time due to cost of new lights. No clear savings attributable to this change.

SPPL continues to look at process improvements that may lead to staff efficiencies. For example, in 2018 we will examine our committee structure, which we use for a variety of education, program and operations planning and implementation activities. We anticipate engaging fewer staff committees, which will not save money but lessen the burden of having staff not "on the floor" while they are participating in a team or committee.

Racial Equity

How does this proposal impact racial equity in Saint Paul?

SPPL's plan for 2018 has racial equity at the center of its work:

- Strategic plan process will include diverse community and stakeholder voices to inform our long-term work.
 - o In 2017, we had community engagement training and expanded outreach.
 - o Commissioned a new "engagement tool" by public artist Amanda Lovelee.
 - Emphasize community and staff input into new plan, not just decision-makers.
- Social work case worker to support youth and adults will improve our services in neighborhoods with disproportionately high poverty and other challenges.
- Continue to invest proportionately across all neighborhoods in programs and services.
- Read, Talk, Sing funds will support work with diverse stakeholders to improve our storytime and other early learning services.
- Committed to hiring and promoting staff of color to FT jobs.

Future Outlook

How does your department plan to address changing service demands as a result of current and future demographics? Looking ahead 5-10 years, do you anticipate that your department will face additional significant budget needs or pressures, and how do you plan to address them?

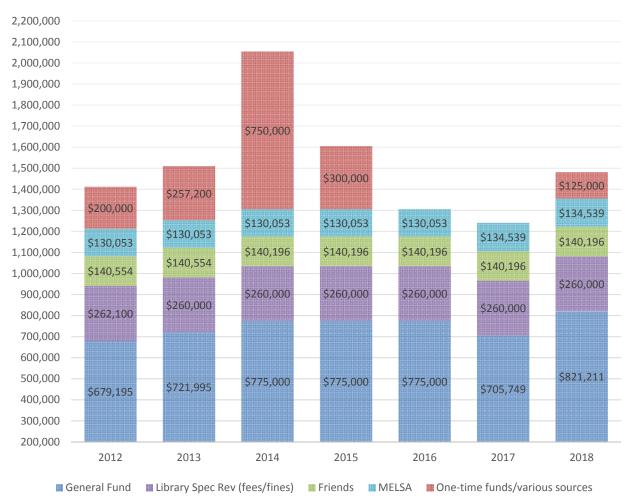

Anticipate continued need to be "high touch," a gathering place for community. Technology does not replace primary service work, especially in higher poverty neighborhoods. Expand partnerships with social services, possibly health, to better serve entire age spectrum. Deepen knowledge of cultural language and attitude differences that should be incorporated into programming (e.g. Storytime review).

If you had additional funding, what would you do to improve service delivery to the public or meet an unmet need?

- Fund caseworkers or social workers (at least two), expand trauma-informed training and other practices.
- Add at least one position in our busiest and most challenged libraries for daily youth programs, especially afterschool, weekends and summer hours.
- Improve some libraries' spaces with better furniture, shelves, and arrangement to better serve patrons.
- Capitol: Three libraries are not yet renovated; other capitol needs may be revealed in Ameresco report (not completed).
