Subject: Sound variance 10/7/17

Hello,

My name is Amber Leshovsky. My fiancé and I have been planning our wedding for a year and a half. We booked the Landmark Center in May of 2016 for our wedding reception on 10/7/17. We have been dreaming and planning for our special, once in a lifetime day. Something I have dreamed of as a young girl.

I was deeply saddened when I got a call today from Betsy at the Landmark Center that there will be an event next to the Landmark Center in the Plaza and they have applied for a sound variance.

We were not informed until today of this large, LOUD event that will be going on in the Landmark Plaza on 10/7/17 as well.

I am appalled that I have to be asked when are our toasts for dinner going to be so that the Landmark Center can assure our guests will be able to hear?!? Can you think of any worse news to hear as a bride in her final weeks of planning?! Something they have worked so hard on.

At this point from my part there is nothing I can do. So, I would hope that you would DENY this sound variance so that we can enjoy our special, once in a lifetime day. These festivals/block parties will come time and time again. This day, 10/7/17, our wedding day will NEVER come again. It would be the least you could do, deny this sound variance request, considering our 220 guests will now be affected with road closures(for this block party MN public radio is throwing), difficulty parking and street traffic they will endure while trying to get to our reception.

If there is any way I can petition this for our once in a lifetime day, please let me know.

Sincerely,

Amber Leshovsky
