### Comments:

The retaining wall that we were issued a correction notice for is not on our property. We had a survey completed that shows the wall is not on our property. We have been trying to work with our neighbors who own the wall since February 2017 to find a solution and bring the wall up to code. Those neighbors have also been removing pieces of the retaining wall. As the wall is on their property, we couldn't even begin work on the wall without their permission, they also made conditions for contractors to work on the wall that are unreasonable and have delayed the process considerably.
