

# **Trends Affecting Payable 2019 Property Taxes in St. Paul**

St. Paul City Council Meeting  
August 15, 2018

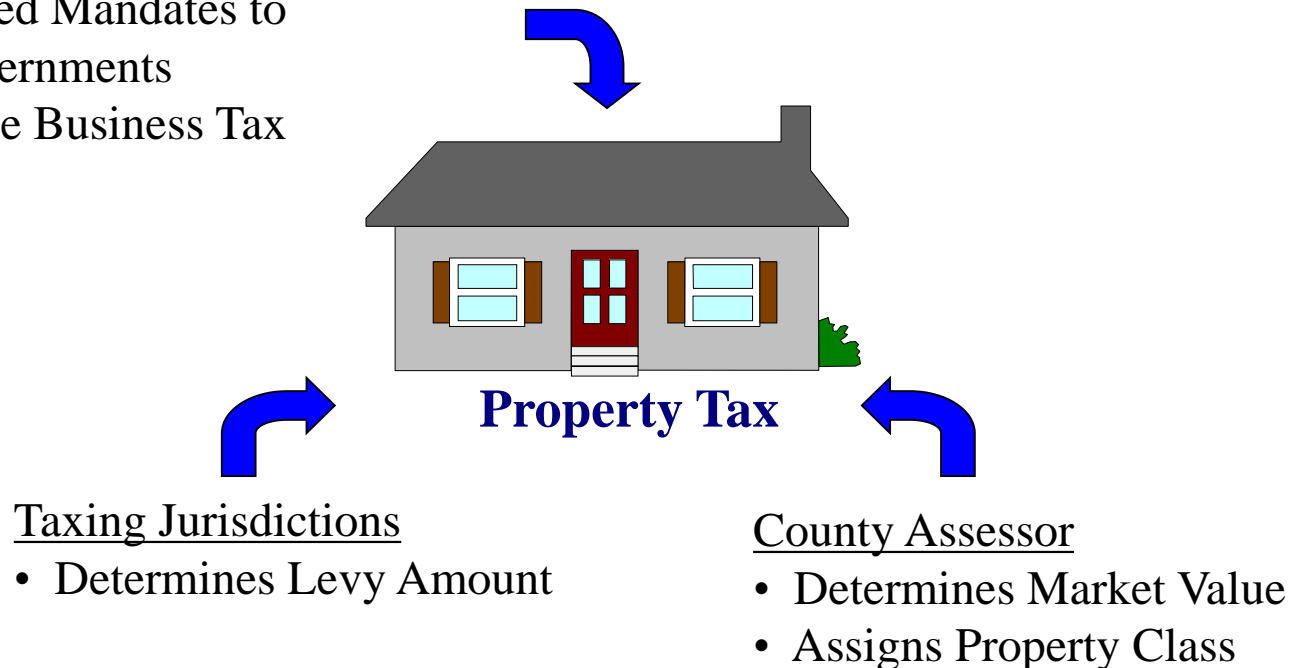

- Tax shifts due to market value changes
  - Overall estimated market values are up 7.6% from the prior year with values now above Pay 2008 peak.
  - Market values are increasing in the double digits for a number of apartment properties while residential, commercial and industrial increases are generally more moderate. This will cause shifting of taxes paid last year by residential, commercial and industrial property to apartment property.
  - Thomas/Dale, Dayton's Bluff, Payne/Phalen and the West Side are all areas with higher increases in residential market values. Properties in St. Paul increased slightly more in value than the suburbs which will shift some county taxes from the suburbs to St. Paul.

- Gain in fiscal disparity distribution levy
  - The City's fiscal disparity distribution levy will increase 22.7% or ~\$5.7 million. This will reduce the impact of the City's levy for most properties in the City by shifting a portion of the tax burden from local taxpayers (mostly residential) to commercial/industrial property throughout the 7-county metro area.
