Subject: Rezoning request Saint Paul'sChurch

As lifetime residents of Saint Paul and of the neighborhood we would respectfully request that you deny the developer's request for such a broad variance. The lack of provision for parking alone makes unreasonable demands on the neighborhood, much less no restrictions on the hours and intended activities of such a center. This is in the heart of residential area which has been a featured part of our city since the streetcars came out to Tangletown.

As the city population becomes more dense we must be careful to maintain areas of parks and green spaces, of quiet amid the developing areas of commerce.

Let us grow Saint Paul thoughtfully.

Thank you,
Tom and Alison Enestvedt
1773 Summit Avenue
