

386 Rose Ave E

7/31/18.

I am here in the court today to express my concerns and receive help from the county to keep my home safe for my family and clean in the surrounding area of my home. I am a refugee from Burma move in this country to be safe and live an American dream.

I have sleepless nights thinking about my family and my children safety

I have called law enforcement several times concerning my home and some of them were some individuals littering in my property with alcohol empty bottles, paste trash. My truck was stolen and my cat tail was cut and burnt. An intruder broke the window and came inside my home to steal my stuffs

I am full time mother working two jobs and taking care of my family. My husband works as a part time PCA and volunteers at church. I pay my bills and property tax on time.

I am a good citizen want to keep my city and home clean. I have been cleaning my backyard couple times when someone is throwing their trash near my property line. One time it was boxes of donuts and just trash. This keeps happening and this is not stopping. last week I hurt my foot and it is hard for me to bend over to clean the litter under the tree. I would appreciate if the court can help clean the area under the tree. I hope your honor can authorize a sign stating fine for littering in public property and also approve for me to place a camera to protect my property. We are planning to sell the property and move out of the house.

Thank you,

Juliana Winner
