Subject: RE: 701 Geranium Ave E.Laliberte Ltr.8-16-18

Mr. Laliberte,

The permit is required to be finaled because you pulled a single permit for the window and the roof.

The window was part of the correction orders, as well as the part of the roof line and fascia. Below are the items noted by inspector Wheeler in the revocation notice. While you were not required to replace the roof, the permit cannot be finaled until all the work on the permit is completed. Had you pulled a separate permit for the window, this would not have been an issue.

Secondly, pulling a permit does not mean you get a year to complete the work from our division. The deadlines from our office supersede the time limit before a permit expires.

Please get this permit finaled ASAP otherwise we will have may have to consider enforcement action.

Thank you for your cooperation.

2. Exterior - Fascia/Soffits - SPLC 34.09 (1)(2), 34.33 (1) - Provide and maintain all exterior walls free from holes and deterioration. All wood exterior unprotected surfaces must be painted or protected from the elements and maintained in a professional manner free from chipped or peeling paint. **-Roof line fascia/soffits have holes & deterioration. Repair and maintain all exterior surfaces in a professional manner.**

9. Upper unit - Upper floor bedroom - SPLC 34.09 (4), 34.33 (3) - Repair and maintain the window glass. -Upper unit, upper floor bedroom window has a hole in the window, glass cracking throughout the window - **New window installed without permit. New windows required to be installed under permit.**

Again I'm requesting why a roofing permit that was never apart of the Co inspection something I replaced on my own you can put a date on it when I have a year. The prior email you stated I completed all that was required in the complaint so please respond . This is a building issue and all work permits are pulled and completed to code

Mr. Laliberte,

You are correct, all the work pertaining to the Fire Inspection has been completed, however we still need to have the permit for the roof and window finaled by the building inspector by the deadline.

Steve Maki is the building inspector for that area. His number is 651-266-9047. Please contact him for a final inspection before the deadline given to you in the previously attached letter.

Thank you.
