Double Dragon Foods 121 Maryland Avenue Saint Paul MN 55117 651 488 9033

The following is prepared by Bona Ku, General Manager of Double Dragon Foods on September 20^{th} , 2018.

- 1. We are mitigating the Odor and Leak with Commercial Dehumidification machines. We have cleaned up waste water and largly stopped further leaking.
- 2. All Electrical work has been done with Kirtland Electric in the basement and throughout the facility and roofing to ensure everything is safe on 09/18/2018-09/19/2018. It was inspected by the electrical state inspector on 09/19/2018. Working is continuing. (2)(6)(7)(8). Electrical state inspector is Randy Clausner.
- 3. Hood Cleaning was last completed on 08/15/18 by KT Hoods Company.
- 4. Kitchen Fryer divider will be installed.
- 5. All Departments have been cleaned. Minnesota Department of Agriculture by David Bobberg has been to the facility on 09/19/2018 and will come by to approve the facility if the City will approve the business to open.
 - 9. All items removed from any Exit Doorways.
 - 10. Meat and Seafood department Flooring is being re-sealed, re-tiled are being performed now for refrigeration rooms, freezer room and food prep rooms. Areas in the basement that have mildew will be demolished within the next 48 hours.
 - 11. Ecolab inspected the whole facility 09/19/2018 for inspection and abatement. They come into the facility every 2 weeks on a schedule.
 - 12-14. Un-used rooms in the basement will be demolished within next 48 hours and space will be kept clean at all times.

Kirtland Electric Ron King 9-20-18

A Replaced multiple Electrical Junction Box Covers

Replaced 2 Rusted light fixtures

* Replaced 4 Electrical Futter Covers
Installed

* Installed multiple Electrical Box Seals

* Closed Cover on Elect Gutter by Roof Hatch

* Replaced IN USE COVER ON Roof

* Reattached Elect Condit on Roof

* Installed Electrical Box Seals on Roof

* Wire brushed Conduit and Junction Boxes in Basement and Painted with zine Paint

* Capped wires and installed Junction Box cover and seal by Deli

* Removed old piping not in use in the basement

* Fixed broken Follexable Conduit by main Service in The basement

NOTICE OF CONDEMNATION UNFIT FOR HUMAN HABITATION ORDER TO VACATE

RE:

121 MARYLAND AVE W

Ref. # 13002

Dear Property Representative:

Your building was inspected on September 18, 2018.

The building was found to be unsafe, unfit for human habitation, a public nuisance, and a hazard to the public welfare or otherwise dangerous to human life. A Condemnation Placard has been posted on the building.

The following deficiency list must be completed or the building vacated by the re-inspection date.

A reinspection will be made on or after October 19, 2018.

CONDEMNATION OF THE BUILDING REVOKES THE CERTIFICATE OF OCCUPANCY.

Failure to complete the corrections may result in a criminal citation. The Saint Paul Legislative Code requires that no building be occupied without a Fire Certificate of Occupancy.

DEFICIENCY LIST

- 1. BASEMENT LEVEL SPLC 34.23, MSFC 110.1 This occupancy is condemned as unfit for human habitation. This occupancy must not be used until re-inspected and approved by this office.
 - -Observed wastewater, leaking/dripping, throughout the basement and pooling on the floor. Initial inspection revealed a putrid odor delaying further investigation until an attempt was made by staff to neutralize the smell.
- 2. BASEMENT LEVEL SPLC 34.23, MSFC 110.1 This occupancy is condemned as unsafe or dangerous. This occupancy must not be used until re-inspected and approved by this office.
 - -Observed wastewater impinging on multiple electrical fixtures throughout the basement level including the main electrical panel. Abate the leaking water source and ensure all electrical equipment is in safe and working condition.
 - -Observed severe oxidization of metal support I-beams a structural analysis will be required to ensure integrity of the structural member. A permit(s) may be required.
- 3. MAIN LEVEL KITCHEN MSFC 609.3.3 Contact a qualified hood and duct cleaning service company to clean and service grease duct vent for commercial cooking equipment. Provide documentation as proof of compliance. Maintain venting system in a clean and sanitary condition.
 - -Provide inspector report showing that this has been completed. (Note: The current cleaning frequency appears to be inadequate to maintain equipment properly).
- 4. MAIN LEVEL KITCHEN FRYER NFPA 96.

 -Provide a 16" separation between the fryer and surface flames. Or provide an approved vertical steel barrier extending 12 inches above the top of the deep fat fryer or open flame appliance(s).
- 5. MAIN LEVEL MEAT PREP/SEAFOOD PREP SPLC 34.08 (1), 34.34 (4), 34.16 Provide and maintain interior in a clean and sanitary condition.
- 6. THROUGHOUT THE BUILDING MSFC 605.6 Provide electrical cover plates to all outlets, switches and junction boxes where missing.

 -Special attention to the basement level and deli area.
- 7. THROUGHOUT THE BUILDING MSFC 605.1 Repair or replace damaged electrical fixtures. This work may require a permit(s). Call DSI at (651) 266-8989.

 -Repair or replace all damaged electrical cords and equipment (special attention to deli outlets, kitchen electrical equipment, and roof access sub electrical panel).
- 8. THROUGHOUT THE BUILDING MSFC 605.5 Discontinue use of extension cords used in lieu of permanent wiring.
 - -Remove multiple frayed extension cords (special attention to main level deli and the entire basement level).

- 9. THROUGHOUT THE BUILDING MSFC 1030.2 Remove the materials that cause an exit obstruction. Maintain a clear and unobstructed exit path.

 -Multiple blocked exits observed at the time of inspection. Immediately remove obstructions from all exits (special attention to the North side exit and loading dock.
- 10. VASEMENT LEVEL THROUGHOUT SPLC 34.08 (1), 34.34 (4), 34.16 Provide and maintain interior in a clean and sanitary condition.

 -Eliminate all sources of wastewater dripping/leaking throughout the basement.

 Eliminate mold like substances on walls, ceilings, and floor throughout the entire basement level.
- 11. SPLC 34.10 (6), 34.34 (5) Exterminate and control insects, rodents or other pests.

 Provide documentation of extermination.

 -Evidence of rodents in various areas throughout the building. Contact a pest control company to provide adequate abatement of any infestation.
- 12. SPLC 34.10 (7), 34.17 (5) Repair and maintain the walls in an approved manner.
- 13. SPLC 34.10 (7), 34.17(5) Repair and maintain the floor in an approved manner.
- 14. SPLC 34.10 (7), 34.17 (5) Repair and maintain the ceiling in an approved manner.

Saint Paul Legislative Code authorizes this inspection and collection of inspection fees. For forms, fee schedule, inspection handouts, or information on some of the violations contained in this report, please visit our web page at: http://www.stpaul.gov/cofo

You have the right to appeal these orders to the Legislative Hearing Officer. Applications for appeals may be obtained at the Office of the City Clerk, 310 City Hall, City/County Courthouse, 15 W Kellogg Blvd, Saint Paul MN 55102 Phone: (651-266-8585) and must be filed within 10 days of the date of the original orders.

If you have any questions, email me at: James.Perucca@ci.stpaul.mn.us or call me at 651-266-8996 between 7:30 - 9:00 a.m. Please help make Saint Paul a safer place in which to live and work.

Sincerely,

Jim Perucca Fire Inspector III Ref. # 13002

		(The City of St Paul Department of Safety & Inspections declared that the building was Condemned on 9/18/19 due to concerns with unknown pooling water in the meat department, basement, water dripping onto electrical components and rust accumulation on structural members in the basement. The City notified this agency of the issues.		
	·	The MDA inspectors verified various colors of pooling water in the basement, where several containers had been placed to catch dripping. There was a very strong sewage like odor in the meat department from what appeared to be accumulation of liquid and food debris behind the walls. Wall cavities were visible because the firm had removed the floor and lower wall sections to replace. In addition, in the areas where the walls were removed there was was appeared to be significant mold like growth. It was determined that the floor/walls were deteriorated and leaking liquid into the basement at various locations. Opened packages of seafood were found in an open chest freezer near the meat department that was being remodeled and single service items were stored in the basement area with dripping and pooling water.		
		The firm understands they must satisfy all requirements with the City of St Paul to remove the Condemnation prior to this agency giving approval to operate the food establishment.)		

Inspection Published Comment:

A Notice of Inspection was issued on 09/19/18 to Bona Ku, General Manager and Bao Yang, General Manager. A complaint investigation was conducted on this date. A Cease & Desist was issued today because the building is condemned and conditions observed today.

The firm is a grocery store specializing in Asian products. There is a deli that cooks meat from raw; cooks, cools and reheats potentially hazardous foods; slices deli meats and veggies; uses time as a public health control. There is a meat department that sells seafood and cuts, grind and packages other meat and fish products. During the inspection the firm was not handling or producing any foods.

The previous inspection was on 5/17/18 as a complaint investigation with one risk factor issued for TPHC. This was not a full inspection today and no food handling was occurring.

Complaint #3196 was followed up on today which alleges:
MDA received a call on 9/18/18 from Jim Perucca, Commercial Inspection Supervisor with St. Paul Dept of Safety and Inspections regarding Double
Dragon Foods in St. Paul. He stated his inspector was at the building to respond to a complaint of rats behind the deli. The inspector went on site and found water issues in the basement either wastewater or gray water from somewhere in the basement. The inspector felt it was Unsanitary Conditions as the smell was almost unbearable.

On 9/19/18 this agency was notified by the City that the building is condemned as they revoked their Certificate of Occupancy, so it is closed to the public. Concerns with mold build up, rust on structural beams in basement and water leaking on electrical conduit and lighting.

Findings:

The building was placarded at this time and not accessible to the public.

Pest evidence was limited to suspected droppings in deli area.

Firm closed at 4pm on 9/18/18 and since then have been cleaning the store, removing metal/clutter from basement, had some electrical work done in the basement and are replacing the meat department, walk-in cooler and freezer floors and half way up the walls. New tile will be installed in the meat prep area and walk-in cooler. An insulated floor and new sealed concrete will be installed in the seafood freezer. Food that was in the walk-in units is being stored at Star Ocean Foods.

The following pest control records were review with no significant issues noted: 9/19/18, 9/17/18, 9/13/18, 8/28/18 (1 mouse in trap), 8/9/18, 7/30/18.

Photos were taken to document conditions observed and will be uploaded to this report.

Discussed the following topics with the firm:

- Discussed the following topics with the time.

 Proper coving on new flooring and sealing any other floor gaps.

 Storage and disposition of perishables if they are closed for an extended period of time.
- Firm has a pest control company that comes every 2 weeks.
- Structural load if adding a concrete floor to seafood freezer.
- Working with the City of St Paul on applicable permits and any other requirements as part of the building Condemnation.

Contact this agency for approval prior to resuming food operations.
