

Legislative Hearing Officers 8/31/18

Regarding assessment on 571 Earl Street
We have contacted our Councilwoman
Jane Prince at (651) 266-8670 (Holly)

My brother, Stanley Metcalf and I were
in the auto repair business at 571 Earl Street
since the year 1950 (almost 70 years ago)
We have never, ever, had problems with the City.
Things have drastically changed.
My brother died. The business was closed after
several attempts to sell and some people are
dumping their garbage there.

We cannot continue hauling their garbage
away. I will be 90 years old in October.
I have had a serious stroke and will sell
to the City of St Paul for any reasonable
price. They need Senior Housing and my
wife and I would be glad to rent a unit
from them.

We have always paid our Taxes on time
but our savings are being used to haul
other people's garbage away.

We ask the Mayor and City Council to
look at the entire neighborhood and decide
if we deserve this kind of treatment.
We both Thank you for whatever you can
do.

Sincerely,
James F. Mitchell
