Marcia,

Jim Seeger and I inspected 830 University Ave. West yesterday, January 7<sup>th</sup>, for the purpose of determining the percentage of Code Compliance work that has been completed to date. Jim's determination is that 65% has been completed. Please see the attached photos that I took; these photos have been attached to the VB folder in AMANDA as a photo document (and the clarity is much better than the attached pdfs).

I want to remind everyone that this dwelling is approved for rehabilitation as a DUPLEX, not a triplex. The representative for Paramount Investment Group we met yesterday seemed to think that it will contain three units. BZA approval would be needed for triplex use and a new Team Code Compliance Inspection would be required.
