City of St. Paul – City Council  
15 Kellogg Blvd. West, 310 City Hall  
Saint Paul, MN 55102

February 20, 2019

Dear City Council Members,

The St. Anthony Park Community Council recommends that the Saint Paul City Council amend Chapter 236 of the Legislative Code regarding plastic packaging, as detailed in File Ord 17-29, Version 2. This ordinance would reduce the waste stream that is comprised of single use, non-recyclable, non-compostable plastics.

It is critical that we join with other cities in seeking ways to reduce the use of fossil fuel. Prohibiting these plastics will motivate development of alternative packaging, may broaden public recognition that they are allowed to bring their own containers for this purpose, and may serve as encouragement for restaurants to reduce serving sizes so less food is wasted.

Thank you for your consideration.

Sincerely,

A handwritten signature in cursive script that reads "Kathryn Murray".
