Due to the warm weather, I treated the whole exterior foundation, 3 foot up and 3 foot out for ant control. I also sprayed into the window cavity where it is known for ants to go in. I sprayed he tree stump in the front as well as the grind off area. In the interior, I baited the kitchen, living room where ant was found, bedroom windows and heat register and next to stairs. I sprayed all available heat register, baseboard in the kitchen, and windows in the bedroom and left living room. Please allow up to 2-3 weeks for the ants to die off. Thank you.
