I am writing to you in connection with the new trash collection program. I have made 2 phone calls to your department and to the Berquist indicating that I do not need trash removal at my home because I use the trash container at the business I own.

Also, since last September, because of medical conditions, I have been in the hospital, transitional care or at my sister's house. I am still at my sister's house receiving home care.

Enclosed are copies of forms filed with your department in December which indicated that 1132 Jackson is a vacant lot and 1122, though it is a duplex, has not had a renter on the second floor in over 10 years, and as I stated above, I have not been living on the first floor. Therefore, there has been no trash to collect. And, as I said above, when I do move back into the house, any trash will be dealt with by the disposal service I have at my shop.

Please use this letter as authorization to discontinue this service (which I have not been using). Also, because there was no trash to be picked up since September, I do not feel responsible for the \$232.20 I have been billed.

Thank you.

Roger W. Stadler
