CITY OF SAINT PAUL, MINNESOTA Conditional Use Permit (CUP)

ZONING FILE NO:

06-101-526

APPLICANT:

Neighborhood Development Alliance

PURPOSE:

Conditional Use Permit for two-unit cluster development

LOCATION:

235 Belvidere St E

LEGAL DESCRIPTION:

PIN 082822340183, THE WEST ST. PAUL REAL ESTATE AND IMPROVEMENT SYNDICATE ADDITION NO. 1 LOTS 25 & LOT 26 BLK 12

ZONING COMMITTEE ACTION:

Recommended approval with conditions

PLANNING COMMISSION ACTION:

Approved with conditions on July 28, 2008

CONDITIONS OF THIS PERMIT:

Conditions specified in Sec. 65.130 and the following additional conditions:

- 1. The applicant gets agreement from the owner of the residential property to the east of the site for project grading proposed to occur on that property.
- 2. Fast growing native seed will be planted on the graded soil north of the backyard retaining wall to stabilize the soils and create a natural buffer between the retaining wall and the preserved vegetation at the rear of the site.

3. The applicant meets all other requirements for site plan approval by City staff.

APPROVED BY:

Brian Alton, Commission Chairperson

i, the undersigned Secretary to the Zoning Committee of the Planning Commission for City of Saint Paul, Minnesota, do hereby certify that I have compared the foregoing copy with the original record in my office; and find the same to be a true and correct copy of said original and of the whole thereof, as based on minutes of the Saint Paul Planning Commission meeting held on July 28, 2006 and on record in the Saint Paul Planning Office, 25 West Fourth Street, Saint Paul, Minnesota.

This permit will expire two years from the date of approval if the use herein permitted is not established.

The decision to grant this permit by the Planning Commission is an administrative action subject to appeal to the City Council. Anyone affected by this action may appeal this decision by filing the appropriate application and fee at the Zoning Office, 1400 City Hall Annex, 25 West Fourth Street. Any such appeal must be filed within 10 calendar days of the date of the Planning Commission's decision.

Violation of the conditions of this permit may result in its revocation.

Malled: July 28, 2008

city of saint p	aul
planning com	nmission resolution
file number_	06-63
date	July 28, 2006

WHEREAS, the Neighborhood Development Alliance, File # 06-101-526, has applied for a Conditional Use Permit for a 2 unit cluster under the provisions of §65.130 of the Saint Paul Legislative Code, on property located at 235 Belvidere St E, Parcel Identification Number (PIN) 082822340183, legally described as THE WEST ST, PAUL REAL ESTATE AND IMPROVEMENT SYNDICATE ADDITION NO. 1 LOTS 25 & LOT 26 BLK 12; and

WHEREAS, the Zoning Committee of the Planning Commission, on July 20, 2006, held a public hearing at which all persons present were given an opportunity to be heard pursuant to said application in accordance with the requirements of §64.300 of the Saint Paul Legislative Code; and

WHEREAS, the Saint Paul Planning Commission, based on the evidence presented to its Zoning Committee at the public hearing as substantially reflected in the minutes, made the following findings of fact:

- 1. This property is currently an overgrown, vacant double lot with steep slopes in the middle of a fully developed residential street. In 1999, the St. Paul Housing and Redevelopment Authority (HRA) purchased the lot, which contained a substandard house with septic service. In 2000, the City demolished the house. Since that time, illegal dumping on the lot has been a problem, and the City installed a guard rail to protect passersby from the steep slope on the front of the lot. In 2004, the HRA asked the Neighborhood Development Alliance (NeDA) to partner in developing a residential project for the site. Habitat for Humanity also became involved, due to the challenges and expense of developing the lot. The resulting proposed project would construct two affordable, attached single family units on the double lot. A lot split with common wall agreement would be sought after construction.
- 2. §65.130 defines a cluster development as, the arrangement of two (2) or more dwelling units, either attached or detached, as part of a single development that may include more than one (1) principal residential building on a zoning lot. Section 65.130 permits cluster developments provided the following standards and conditions are met:
 - (a) Applications for cluster development shall include site plans, including landscaping and elevations and other information the planning commission may request. This condition is met. At this time, all plans have been submitted.
 - (b) No unit shall intrude on the vertical airspace of any other unit. This condition is met. The applicant's plans show a twin home with attached, two-story dwelling units to be constructed side by side on a vacant lot.
 - (c) The parcel shall have a minimum frontage of eighty (80) feet on an improved street and meet the lot area required per unit in the zoning district. Individual lots within a cluster development

seconded	by
in favor	unanimously
against	

Zoning File #06-101-526
Planning Commission Resolution
Page 2 of 2

may have less than the required lot area for the zoning district provided such reductions are compensated for by an equivalent amount of property owned in common elsewhere in the cluster development. Lot area shall not include areas designated as public or private streets. This condition is met. The parcel has 80 ft. of frontage on Belvidere St. E. and is twice the minimum lot width of 40 ft. required in the R4 district. The total lot area is 10,000 sq. ft., which is twice the minimum lot area of 5,000 sq. ft. required per unit in the R4 district.

- (d) Structures shall conform to the dimensional standards for height, lot coverage, and setbacks for the zoning district. Required yards within a cluster development may be reduced or eliminated provided required yards are maintained along the periphery of the cluster development. This condition is met. The average front setback on the north side of this Belvidere St. E. block is 25 ft. from the inside curb line, which is consistent with the standard minimum front setback in an R4 district. The applicant's twin homes conform to the 25 ft. setback. The required minimum setback for side yard is 4 ft. and for rear yard is 25 ft. The applicant's plan exceeds the minimums for side and rear yards. The proposed units are two stories tall, less than the three story maximum for the district.
- (e) The design shall be compatible with the surrounding neighborhood. This condition can be met. The proposed units are designed to look like two single-family homes, with doors and windows facing the street and front porches. The two story units will be consistent in height with the mix of one and two story homes in the area. Front yard landscaping of bushes near the porch and two boulevard trees will blend in with the existing vegetation on the block.
- (f) Individual lots, buildings, street and parking areas shall be designed and situated to minimize alteration of the natural features and topography. This standard is met. The applicant proposes the minimum alteration needed to create a developable lot that is more consistent with the character and elevations of the surrounding properties and housing units. The Housing and Redevelopment Authority is pursuing housing construction on this site, in part because the existing topography attracts illegal dumping and nuisance activities.

NOW, THEREFORE, BE IT RESOLVED, by the Saint Paul Planning Commission, under the authority of the City's Legislative Code, that the application of the Neighborhood Development Alliance for a Conditional Use Permit for a 2 unit cluster at 235 Belvidere Street East is hereby approved subject to the following additional conditions:

- The applicant gets agreement from the owner of the residential property to the east of the site for project grading proposed to occur on that property.
- Fast growing native seed will be planted on the graded soil north of the backyard retaining wall to stabilize the soils and create a natural buffer between the retaining wall and the preserved vegetation at the rear of the site.
- 3. The applicant meets all other requirements for site plan approval by City staff.
