Sewer system was broken and there was no water whole building and contractor dig big whole inside my store which cause to move a lot of stuffs. Most of my invoices are somewhere in my store but I cannot find right away. I did not have all my invoice available during their audit. I did provide what is available that moment. They did tell me to find all invoices within hour. It is not possible for me to get all invoices within hour. They did mention they will send me a letter within 30 days, but my store was condemned by city of St. Paul August 30, 2019 which will cause my business did not receive any mail before November 1, 2019.
