**Subject:** Kasota Ave property wetland issue response

**Think Before You Click: This email originated outside our organization.**

Mr. Mastey,

This email is in response to your inquiry regarding wetlands on the Kasota Ave property. I have reviewed the report provided by Sambatek as well as the Notice of Decision (NOD) issued by the City of St. Paul as the LGU for Wetland Conservation Act (WCA). I agree with the findings of the City based on the information provided by the consultant and did not have any comments during the appeal time after the NOD was issued. BWSR is the oversight agency for the state WCA and it appears that the City followed the proper protocol in their review and noticing procedures.

Please contact me if you have questions.

Regards,

**Ben Meyer | Wetland Specialist**
