To Whom it May Concern,

Mr. William Stuff has approached NeighborWorks Home Partners to inquire about funds that may be available for the repair of his home at 489 Sherburne Avenue.

NeighborWorks has home improvement funds that Mr. Stuff may apply for. Funding would be contingent upon a successful loan application and determination of a scope of work and bids that is within the program budget limits that would bring the property into compliance to receive a certificate of occupancy. All NeighborWorks home improvement funds require owner-occupancy.

We support Mr. Stuff's request for additional time to explore this and other solutions to repair his home. Our staff is in communication with Mr. Stuff and with Carol Carey of Historic Saint Paul and Caty Royce of Frogtown Neighborhood Association.

Sincerely,

Beth Hyser
Chief Program Officer
NeighborWorks Home Partners
