Fiscal Analysis

The Office of Financial Services Real Estate Section ("Real Estate") proposes to repair and restore large sections of the exterior walls on the north and west sides of the City Hall Annex building, which Real Estate manages. Beams and columns that have experienced spalling will be restored and the brick face will be repaired as needed, cleaned, tuckpointed and sealed. A special insulated overlay will be affixed to the east stairwell to keep it warmer in the winter and minimize the possibiity of interior pipes freezing and bursting. Real Estate has been working with a structural engineering consultant to conduct an assessment of the exterior walls and to prepare cost estimates, plans and specifications for the needed repair and restoration work. There is currently insufficient funding in the 2020 City Hall Annex operating budget to finance the Project. Real Estate proposes additional financing through the use of an inter-departmental loan through the Office of Financial Services Treasury Section (\$500,000) and the use of Fund Equity within the City Hall Annex accountina unit (\$500.000). Real Estate estimates the total cost for this work at \$1.000.000.
