Based on our conversation in the past, I believe that we would be required to obtain a 90% approval rating from our neighbors. We told our staff that if they were interested in going out and getting the signatures that we would then support it. My question to you is to verify that the signatures required would be for homes within 300' of the Green Mill, correct? Also, would I be able to get that list of addresses to be able to contact the appropriate neighbors? Mary Jule Erickson Chief Financial Officer Green Mill Restaurants, Inc. Staff said that when the water gets too hot and scalding, they shut off the hot water. This happens fairly frequently. Complainant is concerned that if there is no hot water in the restrooms, there probably is no hot water for people in kitchen to wash hands while cooking.
