**CIRCUIT BREAKER WITH  
ARC FAULT PROTECTION**

OWNER INSTRUCTIONS: To verify operation - test the device monthly by:

ON

OFF

TEST

TRIP

1. Insure that the panel is energized.
2. Insure that the Protector is in the "ON" position.
3. Pressing the "TEST" button handle must trip to center position. If not, call electrician for correction.
4. Reset the Protector by moving the handle to "OFF", then "ON".
5. Keep "Homeowner Instructions", enclosed with Protector for future reference.
