1212 Prospertiy Variance Application File # 20-018-602 – APPEAL

Applicant's belief is that the staff report made errors/omissions that resulted in a denial for our requested variance to the 0.30 Floor Area Ratio (F.A.R.). The staff report states that 4 of 6 criteria (listed below as a-d) for the requested variance have not been met. Below is a summary of our findings and reasoning for why these criteria (a-d) have indeed been met.

(a) The variance is in harmony with the general purposes and intent of the zoning code and (b) The variance is consistent with the comprehensive plan.

The staff report states in 4. (a) that "The variance is in harmony with the general purposes and intent described in Section 60.103 of the zoning code except for implementing the policies of the Comprehensive Plan." The staff report goes on to state "The variance is in harmony with the intent of the zoning district with an exception".

Applicant worked extensively with City staff to make sure all of our design standards met zoning requirements and comprehensive plan guidelines with the only exception being the 0.30 Floor Area Ratio (FAR).

To be clear, our belief is not that we meet the definition of 0.30 FAR. Our belief is that we meet the intent of the guide plans in regards to their use of a Floor Area Ratio (FAR). Our project is the height of a 2-story building which meets the design standards and guidelines of the 2030 and 2040 comprehensive guide plans for this neighborhood at this location. Applicant has also agreed to deed 6,000 square feet of land area to the neighboring property owner for future development which in turn increases our FAR from 0.126 to 0.157. At a 0.157 FAR and a 3,855 square foot building footprint, we would exceed the 0.30 FAR by adding a second floor within our proposed building. Unfortunately, we cannot add a second story due to BOA's operational requirements. Applicant's argument is that the proposed building height of 20' is a reasonable manner in which to fulfill both the intent of the design standards and guidelines for comp plans and BOA's operational requirements. The nature of comprehensive guide plans spanning 20 years inevitably leads to the interpretation of gray areas such as this.

Additionally, while the staff report states that "bank" is an approved use in T2 Zoning and both of the comprehensive guide plans, the 0.30 F.A.R. effectively prohibits a bank from constructing a new building at this location. The design standards and use standards are in direct conflict for a prototypical national bank branch. 99% of banks being constructed in Minnesota in the last 5 years are 2,500 to 4,500 square feet. Banks are getting smaller not larger. In order to be FAR-compliant, a bank would have to be 9,000 square feet on this site which is not feasible.

(c) The applicant has established that there are practical difficulties in complying with the provision; that the property owner proposes to use the property in a reasonable manner not permitted by the provision and (d) The plight of the landowner is due to circumstances unique to the property not created by landowner.

In working with City staff the applicant faced many design challenges as the property is in a T2 Zoning District. Those challenges include:

- 1. Per section 66.343 Buildings must be anchored on the street corner.
- 2. Per section 66.331 a Nonresidential structure must be within the 10'-0" front yard setback. The subject property falls at the street corner of Prosperity Avenue and Maryland Avenue E. Therefore not 1 but 2 building elevations must be within 10'-0" of the property line. The challenge presented itself as Prosperity Avenue runs at an angle and creates a difficult property line and site constraint. The applicant's team however was able to work with City staff and accommodate this requirement by "jogging" or "stepping the building" to follow the property line.
- 3. Elevation grades on site fall more than 10'-0" from the northeast corner to the southwest corner of the site. Due to this the applicant had to establish a higher building floor height which added a stairway from the street corner to the building entrance. The applicant was able to work with City staff and find a scenario where the stairway stayed within the property line and the building also stayed within the setback requirement in item #1 above. The applicant was able to resolve this concern by creating a 45 degree angled wall at the building entrance and face the entrance directly at the street corner.
- 4. Per section 66.343 building entrance location must face each arterial or collector street. Due to setback requirements and property shape limitations along Prosperity two separate building entrances for each arterial road was difficult. However, the applicant was able to fulfill the requirement by turning the building entrance 45 degrees and face the entrance directly at the street corner as shared in above items.
- 5. Per section 65.513 drive through lanes must be 60'-0" from a residential property line. The property to the north of the subject property is residential and the applicant was able to work with City staff and accommodate this requirement.
- 6. With regards to the setback requirements to the south and drive through requirements to the north as described above the building and site design are constrained north to south.

Upon the assessment shared above with regards to building location, setback requirements, elevation grade change, entrance location and drive through lane requirements needed for banking operations the applicant feels it is practically difficult to achieve the required 0.30 FAR.

It is of equal importance to note that the neighborhood is supportive of our project. The Greater East Side Community Council approved our proposed development on 3/18/20.

For all of the reasons above, we appeal to the City Council to overturn the Planning Commission's decision and grant our variance request to reduce the Floor Area Ratio (FAR) from 0.30 to 0.15.

ZONING COMMITTEE STAFF REPORT

- 1. **FILE NAME:** Told Development (1212 Prosperity)
- 2. APPLICANT: Told Development Company
- 3. TYPE OF APPLICATION: Conditional Use Permit & Variance
- 4. LOCATION: 1212 Prosperity Ave E, northeast corner of Prosperity and Maryland Avenues
- PIN & LEGAL DESCRIPTION: 22-29-22-34-0082, Lots 10 17, Nilssons Subdivision of Lots 9 and 10, Block 4 of Rogers and Hendricks Acre Lots No. 2 (subject to vacated alleys). See survey sheet V1.0 dated 1/15/20 for additional detail.
- 6. PLANNING DISTRICT: 2
- 7. ZONING CODE REFERENCE: § 61.501; § 65.513; § 61.601; § 61.202(b); § 66.331
- 8. STAFF REPORT DATE: April 3, 2020
- 9. DATE RECEIVED: March 6, 2020
- **BY:** Mike Richardson **60-DAY DEADLINE FOR ACTION:** May 4, 2020
- A. **PURPOSE:** Conditional use permit for two drive-through lanes, and variance of minimum floor area ratio (0.3 required, 0.126 proposed) for a new bank building.
- B. PARCEL SIZE: 30,563 sq. ft.
- C. EXISTING LAND USE: Adult daycare and home healthcare
- D. SURROUNDING LAND USE:

North: Single Family Residential

East: Single Family Residential

South: Institutional – Bureau of Criminal Apprehension

West: Commercial – General Retail (Walgreens)

- E. ZONING CODE CITATION: §61.501 lists general requirements for all conditional uses; §65.513 establishes standards and conditions for drive-through sales and services; §61.202(b) authorizes the planning commission to grant variances when related to permits; §61.601 establishes required findings upon which the Planning Commission must base variance decisions; § 66.331 sets forth density and dimensional standards that are specific to traditional neighborhood districts.
- F. **PARKING:** Zoning Code § 63.207 requires 1 space per 400 square feet GFA for a bank. Based on the proposed GFA of 3,855 square feet, a minimum of 10 spaces is required and a maximum of 17 without a conditional use permit. The applicant has proposed 17 spaces.
- G. **HISTORY/DISCUSSION:** The site is subject to numerous plans and was proposed to be zoned B1 in the 1995 Phalen Village Small Area Plan, when the building operated as a bank. The 2005 *Northeast Corridor Development Plan* recommended zoning to its current T2 designation.
- H. **DISTRICT COUNCIL RECOMMENDATION:** The Greater East Side Community Council (District 2) sent a letter supporting the application.
- I. FINDINGS:
 - The applicant is proposing to demolish an existing 1-story building currently used for adult daycare and home healthcare and build a bank of approximately the same size on the northeast corner of Maryland and Prosperity Avenues. Banks are an allowed use in the current T2 zoning district and up to three drive-through lanes are permitted with a conditional use permit. The applicant is proposing two drive-through lanes with a bypass lane on the outside. T2 has a minimum FAR of 0.3, and the proposed FAR is 0.126, necessitating a variance.

FILE #: 20-018-602 HEARING DATE: April 9, 2020

PRESENT ZONING: T2

Zoning Committee Staff Report, Zoning File #20-018-602 4/2/20 Page 2 of 6

- 2. § 61.501 lists five standards that all conditional uses must satisfy:
 - (a) The extent, location and intensity of the use will be in substantial compliance with the Saint Paul Comprehensive Plan and any applicable subarea plans which were approved by the City Council. This condition is met. The extent, location, and intensity of the accessory drive-through use does not conflict with the Comprehensive Plan nor applicable subarea plans. While Land Use Policy 1.52 from the 2030 Comprehensive Plan "[d]iscourage[s] new and expanded auto-oriented uses," it does not prohibit them. The Zoning Code allows drive-throughs in T2 districts as long as they meet conditions established here, which mitigate potential negative impacts to nearby properties and users of the site.
 - (b) The use will provide adequate ingress and egress to minimize traffic congestion in the public streets. This condition can be met. The applicant is proposing to reduce the total number of curb cuts from four to three, one on Maryland and two on Prosperity. Saint Paul Public Works and Ramsey County have reviewed initial plans and asked that the applicant try to reduce curb cuts on Prosperity Avenue from two to one. Satisfaction of this standard is contingent upon site plan approval.
 - (c) The use will not be detrimental to the existing character of the development in the immediate neighborhood or endanger the public health, safety and general welfare. This condition is met. The existing character of the area will remain generally the same, with a one-story office building at the corner replaced with a one-story bank of approximately the same size and FAR, also located at the corner. At least two drive-throughs exist within a quarter mile of the site. The use will not endanger the public health, safety and general welfare.
 - (d) The use will not impede the normal and orderly development and improvement of the surrounding property for uses permitted in the district. This condition is met. The proposed drive-through would not impede development of the surrounding properties.
 - (e) The use shall, in all other respects, conform to the applicable regulations of the district in which it is located. This condition is met.
- 3. § 65.513 establishes standards and conditions for drive-through sales and services:
 - (a) Drive-through lanes and service windows shall be located to the side or rear of buildings, shall not be located between the principal structure and a public street, and shall be at least sixty (60) feet from the closest point of any residentially zoned property or property occupied with a one-, two-, or multiple-family dwelling. This condition is met. The drive-through lanes and service windows are located on the side of the building and not between the principal structure and public street. The drive-through lanes are at least sixty feet from the closest point of the residentially zoned properties to the north and east.
 - (b) Points of vehicular ingress and egress shall be located at least sixty (60) feet from the intersection of two (2) streets and at least sixty (60) feet from abutting residentially zoned property. This condition is met. The drive-through curb cut is approximately 70' from the residential property to the north and at least 80' from the Maryland intersection. There is another site access point to the north that serves as primary site access for parking.

- (c) Speaker box sounds from the drive-through lane shall not be plainly audible so as to unreasonably disturb the peace and quiet of abutting residential property. This condition can be met. The project will not use traditional teller windows for either of the drive-through lanes, instead using Automatic Teller Machines (ATMs) in each, reducing the amount of noise normally associated with bank speaker boxes.
- (d) A six-foot buffer area with screen planting and an obscuring wall or fence shall be required along any property line adjoining an existing residence or residentially zoned property. This condition can be met. There is 7.9 feet of buffer area and a 6-foot-tall privacy fence planned along the north side of the property. The buffer requirement is met on the east side with 56.4 feet between the face of curb and the T2 property to the east, but there is no fence shown on the plan. The condition can be met with the inclusion of a fence on the east side and screen plantings on the north and east.
- (e) Stacking spaces shall be provided for each drive-through lane. Banks, credit unions, and fast-food restaurants shall provide a minimum of four (4) stacking spaces per drive-through lane. Stacking spaces for all other uses shall be determined by the zoning administrator. This condition is met based on an exhibit provided by the applicant that shows four stacking spaces per lane that would not disrupt internal site circulation.

Additional conditions in the T2 traditional neighborhood district:

- (f) There shall be no more than one (1) drive-through lane and no more than two (2) drive-through service windows, with the exception of banks, which may have no more than three (3) drive-through lanes. This condition is met. The proposal includes two drive-through lanes and one bypass lane.
- (g) The number of curb cuts shall be minimized. In light rail station areas, there shall generally be no more than one (1) curb cut on a block face per drive-through. Drivethrough sales and services are prohibited along the entire length of block faces adjacent to light rail transit station platforms. This condition can be met. As described in Finding 2(b), the applicant has been asked to try to reduce the number of curb cuts on Prosperity from two to one and is currently going through the site plan review process to determine the best solution with City and County approval. Satisfaction of this condition is contingent upon site plan approval. The site is not near a light rail station.

- 4. § 61.601 states that the Planning Commission shall have the power to grant variances from the strict enforcement of the provisions of this code upon a finding that:
 - (a) The variance is in harmony with the general purposes and intent of the zoning code. This finding is not met. The variance is in harmony with the general purposes and intent described in § 60.103 of the zoning code except for implementing the policies of the Comprehensive Plan. See finding 4(b) for rationale. The variance is in harmony with the intent of the zoning district with an exception. The T2 traditional neighborhood district is "designed for use in existing or potential pedestrian and transit nodes. Its intent is to foster and support compact, pedestrian-oriented commercial and residential development that, in turn, can support and increase transit usage. It encourages, but does not require, a variety of uses and housing types, with careful attention to the amount and placement of parking and transitions to adjacent residential neighborhoods." The site is served by the 64 and 54 bus lines and part of the Phalen-Rose Neighborhood Node as defined in the 2040 Comprehensive Plan and the Phalen Village Neighborhood Center as defined in the 2030 Comprehensive Plan. A bank in this location is consistent with having a variety of uses available near transit and could provide an anchor for the intersection and a transition to less intense residential uses to the north and east. The bank use itself is consistent with the 2030 and 2040 comprehensive plans, as well as the applicable small area plans. The location of the building oriented to the corner is consistent with district design standards and improves access for pedestrians. The location of parking (if properly buffered) is located away from the corner helps with the transition to nearby residential uses. However, *compact* development is guided in large part by the FAR requirements in the traditional neighborhood districts, and therefore the variance for FAR is not in harmony with that element of the intent.

Regarding the FAR calculation, § 66.331(a) reads in part "where the new building and its associated parking and landscaping will cover only part of the site and leave the rest of the site open for an additional building, minimum FAR may be calculated based on the area of the site covered by the new building and its associated parking and landscaping." Though the applicant has not indicated whether it would be split or built upon, the eastern 50 feet of the parcel fits this description. The area of this open portion of the site is approximately 6,000 square feet. With this area removed, the new FAR calculation would be 3,855/(30,563 - 6,000), or 0.157, which is still less than the minimum but varies less from the minimum FAR requirement. This eastern portion could support up to a three-story building in the future under current zoning. An additional 5,314 square feet of additional GFA would meet the minimum FAR requirement.

(b) The variance is consistent with the comprehensive plan. This finding is <u>not</u> met. FAR is a tool used to ensure appropriate intensity and compactness of development to meet City goals. A project with less than half of the minimum FAR conflicts with the following plans and policies:

2030 Comprehensive Plan

The future land use designation of the site is Mixed Use Corridor and it is also part of the Phalen Village Neighborhood Center. Mixed Use Corridors encourage a variety of uses, including commercial. The following policies apply:

Land Use 1.15 Promote Neighborhood Centers as compact, mixed-use communities that provide services and employment close to residences.

Land Use 1.52 Prioritize the development of compact commercial areas accessible by pedestrians and transit users over commercial areas more readily accessed by automobile. Discourage new and expanded auto-oriented uses.

2040 Comprehensive Plan (Approved by City Council in 2019, but not yet adopted by the Metropolitan Council)

Policy LU-1. Encourage transit-supportive density and direct the majority of growth to areas with the highest existing or planned transit capacity.

Policy LU-29. Focus growth at Neighborhood Nodes using the following principles:

4. Improve access to jobs by prioritizing development with high job density.

Greater East Side District Plan (2009)

D1b. Promote higher density transit-oriented development along the White Bear and Maryland corridors, consistent with the White Bear Avenue and Phalen Village plans.

- (c) The applicant has established that there are practical difficulties in complying with the provision; that the property owner proposes to use the property in a reasonable manner not permitted by the provision. Economic considerations alone do not constitute practical difficulties. This finding is <u>not</u> met. The applicant states that the difficulty in achieving the minimum FAR is due to the site layout issues that emerge when a drive-through with its associated requirements is included. While proximity to the residential property to the north, the need to position the building at the corner, and the drive-through lane separation requirement on an oddly-shaped lot limit how far north the northern wall can be built, those factors do not prevent construction of a building that would meet the minimum FAR. A bank with a drive-through is a reasonable use of the property.
- (d) The plight of the landowner is due to circumstances unique to the property not created by the landowner. This finding is <u>not</u> met. The applicant cites zoning requirements as the reason for the difficulty, yet those requirements are not unique to the property.
- (e) The variance will not permit any use that is not allowed in the zoning district where the affected land is located. This finding is met. A bank with accessory drive-through service use is permitted in the T2 zoning district.
- (f) The variance will not alter the essential character of the surrounding area. This finding is met. The existing character of the area will remain generally the same, with a one-story office building at the corner replaced with a one-story bank of approximately the same size and FAR, also located at the corner.

- J. **STAFF RECOMMENDATION:** Based on the above findings, staff recommends denial of the variance of minimum floor area ratio (0.3 required, 0.126 proposed) for a new bank building and recommends approval of the Conditional use permit for 2 drive-thru lanes. The conditional use permit is subject to the following additional conditions:
 - 1. Final plans approved by the Zoning Administrator for this use shall be in substantial compliance with the plan submitted and approved as part of this application.
 - 2. The number and location of curb cuts is approved by Saint Paul Public Works and Ramsey County as part of the site plan approval process.
 - 3. A privacy fence of at least 6 feet in height is built along the eastern property line and screen plantings are planted on the north and east sides.
 - 4. The speaker box volume must be set so as to not unreasonably disturb the peace and quiet of abutting residential property.

CONDITIONAL USE PERMIT APPLICATION

Department of Planning and Economic Development Zoning Section 1400 City Hall Annex, 25 West Fourth Street Saint Paul, MN 55102-1634 (651) 266-6583

PROPERTY INFO	Address/Location <u>1212 Prosperity Avenue</u> PIN(s) & Legal Description <u>PID#: 222922340082</u> (attach additional sheet if necessary) Lot Area <u>30,563 sf</u> <u>Current Zoning T2</u>

TYPE OF PERMIT: Application is hereby made for a Conditional Use Permit under provisions of Zoning Code 66.321; 65.513 for the following use or purpose: Section(s) to allow the banking facility ATM drive through lanes in T2 zoning.

SUPPORTING INFORMATION: Explain how the use will meet all of the applicable standards and conditions for the use. If you are requesting modification of any standards or conditions for a conditional use, explain why the modification is needed and how it meets the requirements for modification of special conditions in Zoning Code § 61.502. Attach additional sheets if necessary.

Bank of America is proposing (2) ATM drive through lanes with a third bypass or fire lane for convenience and emergency services. Core reason for proposing the bypass or fire lane is so that customers can exit the line if need be or emergency services can go around vehicles stopped to use the ATM lanes.

As noted in Section 65.513 of the Zoning Code in a T2 district banking facilities are allowed up to (3) drive through lanes total. Bank of America is looking to meet all applicable Zoning Codes and not requesting a modification.

At 1212 Prosperity there is a residential property to our north and per the Zoning Code a drive through lane must measure 60'-0" from a residential property and in this case to the north property line. Ashley Skarda with the Department of Safety and Inspections shared that the Zoning Code does not mention a measurement for pass-thru/bypass lanes. As such, the pass thru/bypass lane without an ATM teller or other services would not need to be part of that 60' distance. We would look at this like a normal lane. That being said per the attached Site Plan our northernmost drive through lane utilized for ATM services is 60.1' from the northern property line.

shall have a FAR of 0.3-2.0. We are requesting a variance with our current proposal at FAR 0.127.

SUPPORTING INFORMATION: Explain or demonstrate the following. Attach additional sheets if necessary.

1. Practical difficulties in complying with the provision of the code from which a variance is requested, and that the property would be used in a reasonable manner not permitted by the provision.

The proposed Bank of America desires drive through lanes as a part of there customer services. Due to this it makes it difficult to achieve an FAR minimum of 0.3 along with other required site amenities.

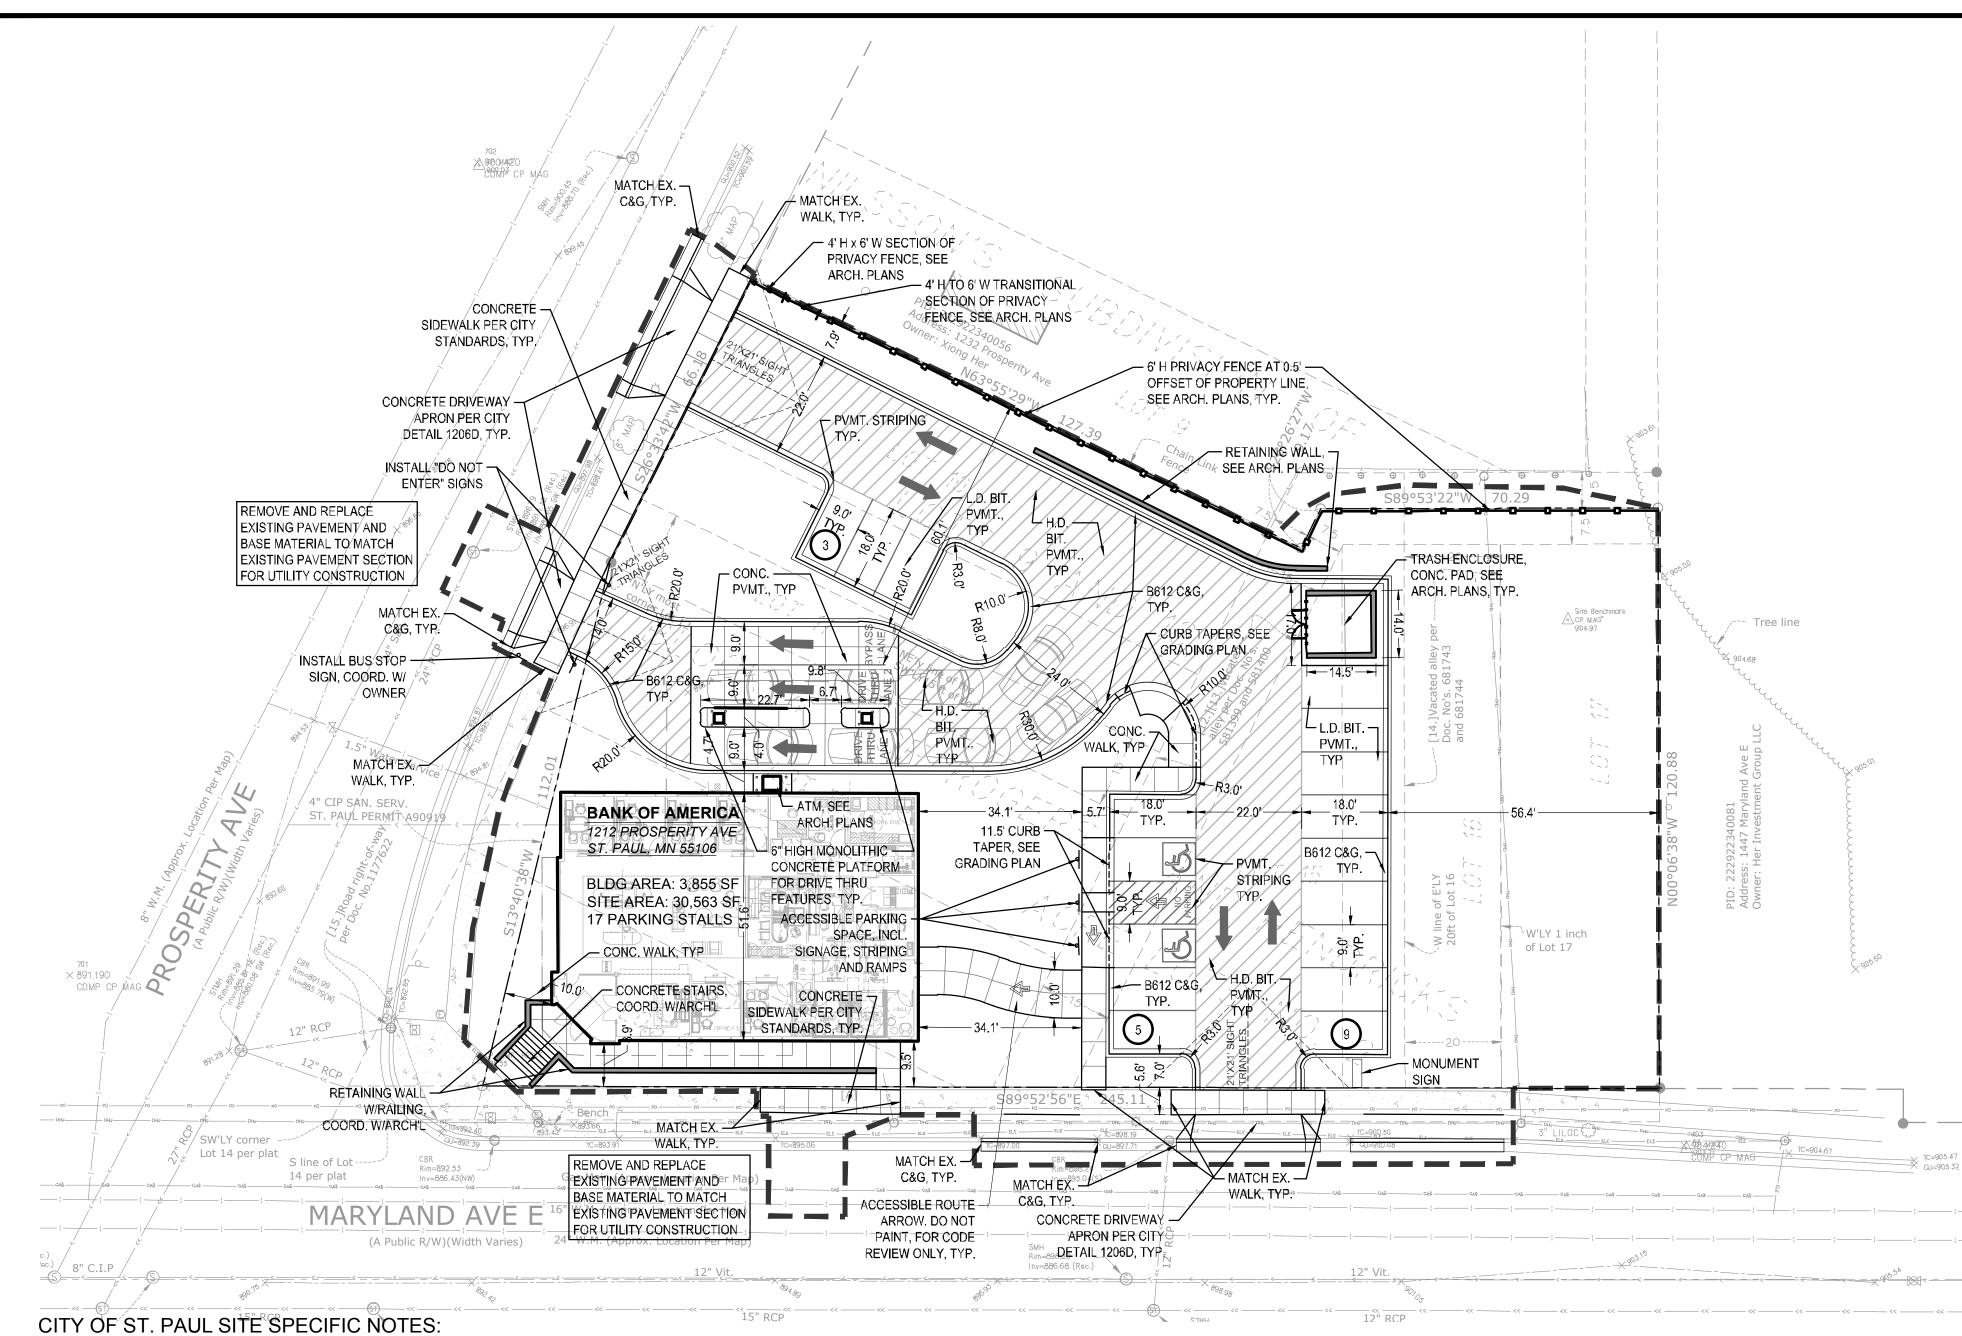

- The plight of the landowner is due to circumstances unique to the property not created by the landowner.
 Due to zoning requirements of corner located structure and 60'-0" minimum distance of drive through lanes from neighboring property line a larger structure would likely sacrifice another zoning requirement.
- 3. The variance will not permit any use that is not allowed in the zoning district in which the property is located. Banking facilities in a T2 zoning is a permitted use per Zoning code and with a conditional use application the desired drive through lanes are as well so this variance wouldn't disturb the current Zoning district.
- 4. The variance will not alter the essential character of the surrounding area. The current structure on the property is 3,889 sf and we are proposing a like size structure at 3,855 sf both in which have the building structure anchored at the corner so we feel it would maintain the character.

WAY/PUBLIC PROPERTY TO THE LOCAL AUTHORITY. CITY LEGISLATIVE CODE GOVERNS MANAGEMENT OF THE PUBLIC RIGHT OF WAY. PROVIDED SUCH INSTALLATIONS ARE APPROVED BY PUBLIC WORKS, FOOTING MAY B ALLOWED TO ENGROACH INTO CITY ROW NO MORE THAN TWELVE (12) INCHES AT DEPTHS BELOW EIGHT (8) FEET AS PROVIDED FOR IN MINNESOTA BUILDING CODE SECTION 3203.1. SAID ENCROACHMENTS WOULD REQUIRE AN ENCROACHMENT PERMIT FROM THE CITY PER CHAPTER 134 OF THE LEGISLATIVE CODE. ENCROACHMENTS INTO COUNTY OR STATE ROW ARE NOT ALLOWED UNLESS AUTHORIZATION HAS BEEN GRANTED FROM SAID AGENCY. ENCROACHMENTS INSTALLED IN THE ROW WITHOUT AUTHORIZATION WILL BE REMOVED AT NO EXPENSE TO THE CITY/STATE/COUNTY. 8. STRIPING: STRIPING RESTORATION SHALL BE COMPLETED IMMEDIATELY FOLLOWING FINAL PAVEMENT RESTORATION. ROADWAY STRIPING IMPACTED BY THE WORK ZONE SHALL BE REPLACED IN KIND AT NO COST TO THE ROAD AUTHORITY. IF THERE ARE QUESTIONS AS TO THE TYPE OF STRIPING MATERIAL TO BE USED, CONTACT CHRIS GULDEN 651-266-9778 IN THE CITY'S TRAFFIC OPERATIONS SECTIONS, IF THERE IS A DESIRE FOR THE CITY OF ST. PAUL PUBLIC WORKS DEPARTMENT TO COMPLETE PAVEMENT MARKING RESTORATION WORK, CONTACT CHRIS GULDEN OF PUBLIC WORKS TRAFFIC OPERATIONS FOR AN ESTIMATE. AT A MINIMUM, TWO WEEK'S ADVANCE NOTICE SHALL BE PROVIDED FOR ANY STRIPING WORK REQUEST. IF ADVANCE NOTICE IS NOT PROVIDED, ANY ASSOCIATED PROJECT DELAYS, AND COSTS

9. ROADWAY RESTORATION: AS PER THE CITY'S STANDARD SPECIFICATION FOR STREET OPENINGS POLICY, RESTORATION ON ROADWAY SURFACES LESS THAN 5 YEARS OLD WILL REQUIRE FULL WIDTH MILL AND OVERLAY OR ADDITIONAL DEGRADATION FEES. DEGRADATION FEES ARE DETERMINED BY CONTACTING THE RIGHT OF WAY SERVICE DESK AT 651-266-6151. PAVEMENT RESTORATION SHALL BE COMPLETED BY THE DEVELOPER/CONTRACTOR. CONTACT STREET MAINTENANCE AT 651-266-9700 FOR ESTIMATE OF COSTS FOR

10. STREET SWEEPING: STREET SWEEPING IS AN IMPORTANT TEMPORARY EROSION CONTROL BEST MANAGEMENT PRACTICE SHALL BE PERFORMED WITH THE USE OF WATER. DRY SWEEPING IS PROHIBITED. ADDITIONALLY, TRUCKS HAULING IN AND OUT OF THE SITE, FOR ANY ACTIVITY INCLUDING BUT NOT NECESSARILY LIMITED TO PAVING, EXCAVATION, ECT., NEEDS TO ENSURE CLEAN OFF ALL FLAPS TO

11. MISCELLANEOUS: ANY PUBLIC INFRASTRUCTURE DAMAGE RESULTING FROM THE CONTRACTORS ACTIVITIES, INCIDENTAL OR OTHERWISE,

1. PER MINNESOTA STATE STATUTE 326, PLEASE BE SURE THAT THE FINAL PLANS SUBMITTED ARE SIGNED BY THE APPROPRIATE LICENSED PROFESSIONAL, I.E. PE, LA, RLS, ETC., RESPONSIBLE FOR PLAN DEVELOPMENT.

2. CONSTRUCTION SUPPLIES, MATERIALS, SPOILS, EQUIPMENT, AND VEHICLES SHALL NOT BE STORED OR OPERATED WITHIN THE DRIP LINE OF ANY PUBLIC STREET TREE OR ON TURF BOULEVARDS WITHOUT PRIOR WRITTEN APPROVAL FROM THE CITY FORESTER. IF THE BOULEVARD MUST BE USED FOR CONSTRUCTION ACTIVITIES, SITE ACCESS ROUTES, MATERIAL STORAGE OR OTHER RELATED ACTIVITIES, PROTECTIVE MEASURES APPROVED BY THE CITY FORESTER SHALL BE TAKEN TO REDUCE SOIL COMPACTION AND PROTECT TREE(S) FROM DAMAGE.

1. ORDERING OBSTRUCTION AND EXCAVATION PERMITS: CONTACT PUBLIC WORKS RIGHT OF WAY SERVICE DESK AT (651) 266-6151. IT IS STRONGLY RECOMMENDED THAT CONTRACTORS CALL FOR COST ESTIMATES PRIOR TO BIDDING TO OBTAIN ACCURATE COST ESTIMATES. 2. OBSTRUCTION PERMITS: THE CONTRACTOR MUST OBTAIN AN OBSTRUCTION PERMIT IF CONSTRUCTION (INCLUDING SILT FENCES) WILL

3. EXCAVATION PERMITS: ALL DIGGING IN THE PUBLIC RIGHT OF WAY REQUIRES AN EXCAVATION PERMIT. IF THE PROPOSED BUILDING IS CLOSE TO THE RIGHT OF WAY, AND EXCAVATING INTO THE RIGHT OF WAY IS NEEDED TO FACILITATE CONSTRUCTION, CONTACT THE

4. FAILURE TO SECURE PERMITS: FAILURE TO SECURE OBSTRUCTION PERMITS OR EXCAVATION PERMITS WILL RESULT IN A DOUBLE-PERMIT

- 1. CONSTRUCTION IN RIGHT OF WAY: ALL WORK ON CURBS, DRIVEWAYS, AND SIDEWALKS WITHIN THE PUBLIC RIGHT OF WAY MUST BE DONE. TO CITY STANDARDS AND SPECIFICATIONS BY A CONTRACTOR LICENSED TO WORK IN THE CITY RIGHT-OF-WAY UNDER A PERMIT FROM PUBLIC WORKS SIDEWALK SECTION (651-266-6108). SIDEWALK GRADES MUST BE CARRIED ACROSS DRIVEWAYS.
- 2. RIGHT OF WAY RESTORATION: RESTORATION OF ASPHALT AND CONCRETE PAVEMENTS ARE PERFORMED BY THE PUBLIC WORKS STREET MAINTENANCE DIVISION. THE CONTRACTOR IS RESPONSIBLE FOR PAYMENT TO THE CITY FOR THE COST OF THESE RESTORATIONS. THE CONTRACTOR SHALL CONTACT PUBLIC WORKS STREET MAINTENANCE TO SET UP A WORK ORDER PRIOR TO BEGINNING ANY REMOVALS IN THE STREET AT 651-266-9700. PROCEDURES AND UNIT COSTS ARE FOUND IN STREET MAINTENANCE'S "GENERAL REQUIREMENTS - ALL RESTORATIONS" AND ARE AVAILABLE AT THE PERMIT OFFICE.
- 3. CONTRACTOR IS RESPONSIBLE FOR DAMAGE TO THE MAIN LINE SIDEWALK, CURB, DRIVE ACCESS AND BOULEVARD LANDSCAPING CAUSED DURING THE CONSTRUCTION. CONTRACTOR RECOMMENDED TO DOCUMENT PRE-EXISTING CONDITION OF THE RIGHT-OF-WAY- PRIOR TO COMMENCEMENT.
- 4. SIDEWALK GRADES MUST BE CARRIED ACROSS DRIVEWAYS.
- 5. ADJACENT STREETS AND ALLEYS MUST BE SWEPT TO KEEP THEM FREE OF SEDIMENT. CONTRACTOR MUST MONITOR CONDITIONS AND SWEEP AS NEEDED OR WITHIN 24 HOURS OF NOTICE BY THE CITY.

ENCROACHMENT NOTES:

- 1. ENCROACHMENTS: PER CHAPTER 134 OF THE LEGISLATIVE CODE, NO PERSON SHALL CONSTRUCT AND MAINTAIN ANY PROJECTION OR ENCROACHMENT WITHIN THE PUBLIC RIGHT-OF-WAY.
- 2. CONSTRUCTION OF THE DEVELOPMENT THAT NECESSITATES TEMPORARY USE OF THE RIGHT-OF-WAY (ROW) FOR CONSTRUCTION PURPOSES SHALL BE LIMITED TO EQUIPMENT, PERSONNEL, DEVICES AND APPURTENANCES THAT ARE REMOVABLE FOLLOWING CONSTRUCTION. ENCROACHMENT PERMITS WILL NOT BE GRANTED FOR DEVICES SUCH AS TIE BACKS, ROCK BOLTS, H-PILES, LAGGING, TIMBERS, SHEET PILING, ETC. THAT THE OWNER IS SEEKING TO ABANDON IN THE ROW.
- 3. SECTION 3201.3 OF THE MINNESOTA BUILDING CODE DEFERS FINAL AUTHORITY OF ENCROACHMENTS INTO PUBLIC RIGHTS-OF-WAY/PUBLIC PROPERTY TO THE LOCAL AUTHORITY. CITY LEGISLATIVE CODE GOVERNS MANAGEMENT OF THE PUBLIC RIGHTS-OF-WAY. PROVIDED SUCH INSTALLATIONS ARE APPROVED BY PUBLIC WORKS, FOOTINGS MAY BE ALLOWED TO ENCROACH INTO CITY ROW NO MORE THAN TWELVE (12) INCHES AT DEPTHS BELOW EIGHT (8) FEET AS PROVIDED FOR IN MINNESOTA BUILDING CODE SECTION 3202.1. SAID ENCROACHMENTS WOULD REQUIRE AN ENCROACHMENT PERMIT FROM THE CITY PER CHAPTER 134 OF THE LEGISLATIVE CODE.
- 4. ENCROACHMENTS INTO COUNTY OR STATE ROW ARE NOT ALLOWED UNLESS AUTHORIZATION HAS BEEN GRANTED FROM SAID AGENCY. 5. ENCROACHMENTS INSTALLED IN THE ROW WITHOUT AUTHORIZATION WILL BE REMOVED AT NO EXPENSE TO THE CITY/COUNTY/STATE.

OPERATIONAL NOTES:

SNOW REMOVAL:

ALL SNOW SHALL OCCUR IN LANDSCAPE AREAS OR OFFSITE.

TRASH REMOVAL: TRASH REMOVAL SHALL OCCUR AT TRASH ENCLOSURE.

DELIVERIES:

DELIVERIES SHALL OCCUR AT MAIN ENTRANCE.

CONTRACTOR SHALL VERIFY LOCATIONS AND LAYOUT OF ALL SITE ELEMENTS PRIOR TO BEGINNING CONSTRUCTION INCLUDING BUT NOT LIMITED TO, LOCATIONS OF EXISTING AND PROPOSED PROPERTY LINES, EASEMENTS, SETBACKS UTILITIES, BUILDINGS AND PAVEMENTS. CONTRACTOR IS RESPONSIBLE FOR FINAL LOCATIONS OF ALL ELEMENTS FOR THE SITE. ANY REVISIONS REQUIRED AFTER COMMENCEMENT OF CONSTRUCTION, DUE TO LOCATIONAL ADJUSTMENTS SHALL BE CORRECTED AT NO ADDITIONAL COST TO OWNER. ADJUSTMENTS TO THE LAYOUT SHALL BE APPROVED BY THE ENGINEER/LANDSCAPE ARCHITECT PRIOR TO INSTALLATION OF MATERIALS. STAKE LAYOUT FOR APPROVAL.

2. THE CONTRACTOR SHALL OBTAIN ALL NECESSARY PERMITS PRIOR TO CONSTRUCTION, INCLUDING A RIGHT-OF-WAY AND

3. THE CONTRACTOR SHALL VERIFY RECOMMENDATIONS NOTED IN THE GEO TECHNICAL REPORT PRIOR TO INSTALLATION OF

CONTRACTOR SHALL FIELD VERIFY COORDINATES AND LOCATION DIMENSIONS OF THE BUILDING AND STAKE FOR REVIEW AND APPROVAL BY THE OWNERS REPRESENTATIVE PRIOR TO INSTALLATION OF FOOTING MATERIALS.

Re: 1212 Prosperity

On March 18, via electronic vote, the Greater East Side/District 2 Community Council voted to support the conditional use permit application for 2 drive-thru lanes and the variance of minimum floor area ration for a new bank building at the property as 1212 Prosperity. The board felt that because the site had previously been used as a bank branch and because of the increase in development in the vicinity that it would be a good use of the property.

Please feel free to reach out to me with any questions or concerns.

Thank you,

From: Sent: To: Subject: Eric Saathoff <ericsaathoff@gmail.com> Tuesday, March 10, 2020 7:59 PM Dubruiel, Paul (CI-StPaul) 1212 Prosperity zoning application

Think Before You Click: This email originated outside our organization.

Hello,

Firstly I'd like to point out that the D2 contact information in this email appears to be incorrect. The new contact email on their website is: <u>info@greatereastsidesp.org</u> The phone number appears to be the same.

This is the message I intended to send to them and to the Ward 6 office. I am also copying you the message below:

Hello,

I wanted to write in to oppose the drive through lanes for this development, as well as the low FAR of .127 instead of the minimum of .3 or up to the maximum of 2.0.

The reason I oppose the drive through lanes is that it continues to perpetuate our car-centric transportation system at the expense of pedestrian and bicycle safety.

They state in the application that they are maintaining the same square footage of the existing building so it will "maintain the character." I think it should be pointed out that zoning at T2 is an effort to shape a new and better character for the neighborhood and the commercial area.

By rebuilding with a FAR below the minimum they may be maintaining the current character, but they are not fulfilling the potential character that our neighborhood wants and deserves. We need to be striving for a more walkable environment and compromising on these priorities with this zoning variance does just the opposite.

I hope Bank of American can be encouraged to create a project that is more reflective of a city environment rather than a suburban one.

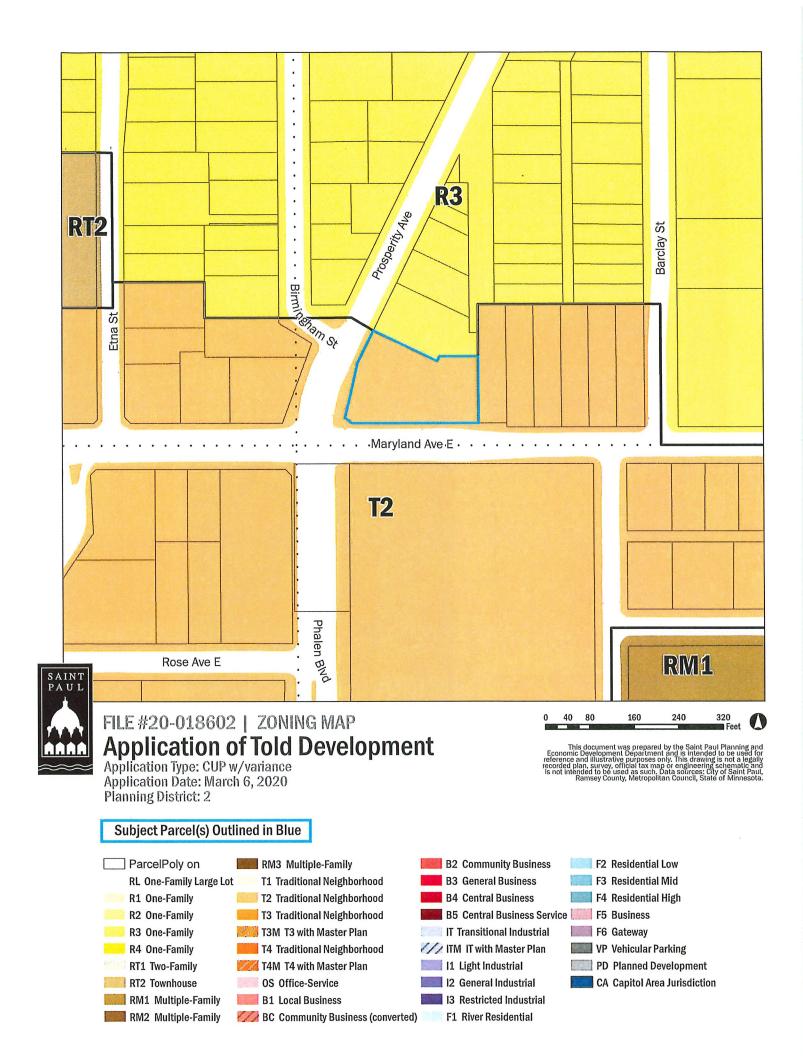

Thank you,

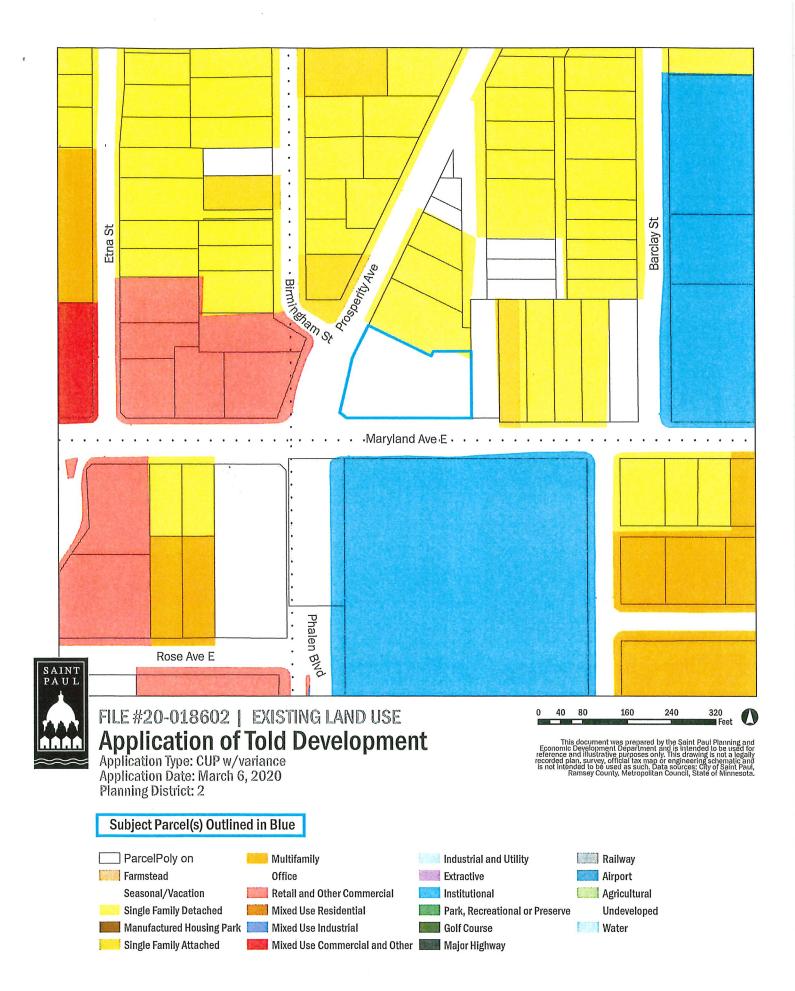

Eric Saathoff
