Written statement via telephone with Mai Vang

I would like to appeal for more time, and I would like until Spring when the first thaw comes. I got rid of the bags they asked me to remove and it's gone. And I am disabled and has 2 broken ankles and I am working on it every day and doing as much as I can. I am on a fixed income, too. I have to come and take breaks because I have shorter breath. And I am getting rid of the cinder blocks.
