St Paul City Council

It seems the trash contract just keeps causing more and more issues, but especially, it is more money to each of the residents. The every other week cost is just \$10 per year less than every week. Half the service, but a small percent less. I guess the negotiation didn't go to well for the citizens on this issue and that creating more trash is less expensive. This whole thing continues to baffle me. I can't wait until the public hearings come up for the new long term contract. All I can say is that this issue brings nothing but tears to my eyes.
