I am Jerry Blume And I live in Ward 3 and a volunteer with Isaiah. I strongly support the passage of the tenants protections ordinance for Saint Paul. Now more than ever, our city needs comprehensive tenant protections to address rising displacement, help keep people in their homes And eliminate discrimination especially during an economic downturn and COVID-19. I know people at listening House and they are bursting at the seams. I ask you to put \$75,000 toward implementing this important ordinance to ensure future stability and safety for all in our community. Thank you.
