Dear Ms. Jalali,

Councilwoman Jalai -

Please pass the Rethinking I-94 resolution (RES 21-164) currently up for your consideration.

This resolution is an important step forward in acknowledging the harm and injustice that I-94's construction inflicted on Saint Paul residents, particularly on Black community members in the Rondo neighborhood. This is harm and injustice that continues to this day. And--especially now with an I-94 reconstruction coming--we need your leadership to start correcting the mistakes of the past.

To that end, please firmly reject any reconstruction of I-94 that includes expanding highway lanes. Instead, commit to prioritizing fast and frequent transit along the I-94 corridor and ensure safe connections for people walking and biking in adjacent neighborhoods. Seize this massive opportunity to combat climate pollution and air pollution, reduce racial and economic disparities, and protect residents' health and wellbeing. Ensure the BIPOC communities along I-94 are heard throughout the planning process, and demand agency partners do the same.

For a more equitable and sustainable Saint Paul, I urge you to pass this resolution (RES 21-164).

Thank you for all of your hard work in making this city a more diverse, healthy, and wonderful place for me and my family. I am continually proud to call you my council member and really appreciate all of the collaborative work you and Matt are doing in the community.

Keep up the amazing work.

Best,  
David

Sincerely,  
David Zeller

Think Before You Click: This email originated outside our organization.

Dear Ms. Jalali,

Please ensure BIPOC communities along I94 are truly heard, not just activists.

We need safe transportation that is also efficient. BIPOC communities are greatly affected when we make transportation difficult, expensive, or time consuming.

Increasing travel time takes away from family time, makes child care harder, and makes errands such as groceries and doctor's office visits impossible.

Please don't reject the idea of more efficient travel on I94 without also considering other options to actually improve transit. Elevated high speed rail, additional BRTs along the corridor would help, and not worrying if there is some overlap in transit services would all help improve transit time. But, if all of the alternatives involve increasing travel time (as the current bus systems do) then let MNDOT improve auto travel.

If you don't care about the travel time of people traveling in the city, then you really aren't prioritizing community.

Sincerely,  
Monica Millsap Rasmussen

Dear Ms. Jalali,

Please pass the Rethinking I-94 resolution (RES 21-164) currently up for your consideration.

This resolution is an important step forward in acknowledging the harm and injustice that I-94's construction inflicted on Saint Paul residents, particularly on Black community members in the Rondo neighborhood. This is harm and injustice that continues to this day. And--especially now with an I-94 reconstruction coming--we need your leadership to start correcting the mistakes of the past.

To that end, please firmly reject any reconstruction of I-94 that includes expanding highway lanes. Instead, commit to prioritizing fast and frequent transit along the I-94 corridor and ensure safe connections for people walking and biking in adjacent neighborhoods. Seize this massive opportunity to combat climate pollution and air pollution, reduce racial and economic disparities, and protect residents' health and wellbeing. Ensure the BIPOC communities along I-94 are heard throughout the planning process, and demand agency partners do the same.

For a more equitable and sustainable Saint Paul, I urge you to pass this resolution (RES 21-164). Thank you!

Sincerely,  
Amber Guthmiller  
1432 Edmund Ave  
Saint Paul, MN 55104

Think Before You Click: This email originated outside our organization.

Dear Ms. Jalali,

I am writing in support of the Rethinking I-94 resolution (RES 21-164) currently up for your consideration.

This resolution is an important step forward in acknowledging the harm and injustice that I-94's construction inflicted on Saint Paul residents, particularly on Black community members in the Rondo neighborhood. It's important to me that our leadership acts to correct mistakes made in the past, and how the I-94 reconstruction is handled is one opportunity to do so.

That is why I am urging you to firmly reject any reconstruction of I-94 that includes expanding highway lanes. I hope you will instead, commit to prioritizing fast and frequent transit along the I-94 corridor and ensure safe connections for people walking and biking in adjacent neighborhoods. These priorities will combat air pollution, reduce racial and economic disparities, and protect residents' health and well-being. I hope you will also ensure the BIPOC communities along I-94 are heard throughout the planning process.

I hope you will vote to pass RES 21-164.

- Melissa Partin

Dear Ms. Jalali,

Hi, Mitra!

I hope this finds you well.

Please pass the Rethinking I-94 resolution (RES 21-164) currently up for your consideration.

As I'm sure you know, RES 21-164 is key to acknowledging the harm and injustice that the I-94 construction inflicted on Saint Paul residents, particularly on Black community members in the Rondo neighborhood. As someone involved in racial justice work in my faith community not far from the Rondo neighborhood I know this harm and injustice continues to this day. With an I-94 reconstruction coming soon, THIS is a moment when we need your leadership.

Please firmly reject any reconstruction of I-94 that includes expanding highway lanes. Instead, commit to prioritizing fast and frequent transit along the I-94 corridor and ensure safe connections for people walking and biking in adjacent neighborhoods.

Seize this critical opportunity to reject increased climate pollution and air pollution, reduce racial and economic disparities, and protect residents' health and wellbeing. Ensure the BIPOC communities along I-94 are heard throughout the planning process, and demand agency partners do the same.

For a more equitable and sustainable Saint Paul, I urge you to pass this resolution (RES 21-164). And I PLEDGE to have your back as you represent the cause of justice. Thank you!

Sincerely,  
David Weiss

Dear Ms. Jalali,

I know I can count on you to be on the right side of this issue, but wanted you to know I stand with you on it as well. The best time to have rethought I-94 would have been before the Rondo

Neighborhood was destroyed in the first place. The second best time to rethink I-94 is today. Please pass the Rethinking I-94 resolution (RES 21-164).

Please firmly reject any reconstruction of I-94 that includes expanding highway lanes. Instead, commit to prioritizing fast and frequent transit along the I-94 corridor and ensure safe connections for people walking and biking in adjacent neighborhoods. Seize this massive opportunity to combat climate pollution and air pollution, reduce racial and economic disparities, and protect residents' health and wellbeing. Ensure the BIPOC communities along I-94 are heard throughout the planning process, and demand agency partners do the same.

Thank you for all that you do for our City!

-Tinman

Think Before You Click: This email originated outside our organization.

Dear Ms. Jalali,

Please pass the Rethinking I-94 resolution (RES 21-164) currently up for your consideration.

This resolution is an important step forward in acknowledging the harm and injustice that I-94's construction inflicted on Saint Paul residents, particularly on Black community members in the Rondo neighborhood. This is harm and injustice that continues to this day. And--especially now with an I-94 reconstruction coming--we need your leadership to start correcting the mistakes of the past.

To that end, please firmly reject any reconstruction of I-94 that includes expanding highway lanes. Instead, commit to prioritizing fast and frequent transit along the I-94 corridor and ensure safe connections for people walking and biking in adjacent neighborhoods. Seize this massive opportunity to combat climate pollution and air pollution, reduce racial and economic disparities, and protect residents' health and wellbeing. Ensure the BIPOC communities along I-94 are heard throughout the planning process, and demand agency partners do the same.

For a more equitable and sustainable Saint Paul, I urge you to pass this resolution (RES 21-164). Thank you!

Sincerely,  
Stella Richardson
