

"Hi. This is John David Schardt. I reside at 747 North Hampton Avenue, Unit 514, Saint Paul, 55114. Calling in regards to the sound level variance for Kraus Anderson Construction Company in Ramsey Company at 2383 University Apartments; it's request for a variance of the sound level limitation as indicated by the noise ordinance Chapter 293 of Saint Paul Legislative Code. My main issue and concern here is that I work for Sun Country Airlines in the maintenance department, and I work overnight shifts. These exact hours essentially from 7 to 5 are the hours I am attempting to sleep essentially 4 days out of the week. I work 4 days on and 4 days off, 12-hour shifts. As I mention, I work in the maintenance department, and it is imperative that I am not interrupted or deprived of sleep on a consistent basis. I would really appreciate some further consideration or mitigation efforts directly corresponding to my situation, and I would be hoping that the construction company would be offering some sort of other alternatives that are realistic and feasible so that my job isn't effected and other people's lives are not put at risk due to any potential sleep deprivation that I may be encountering. My phone number is area code 818-687-2810, and my e-mail is JohnSchardt@gmail.com. Thank you."
