Mr. Guinee,

I am not the one who will make a decision on this. Also, a file needs to be put together to gather all the information in order for the legislative hearing officer to look at. She will review the file a week before the hearing to determine if you are needed or not. Until then, I will not be able to give you answer.

Mai, what one sees on these videos is **exactly** what I said on the phone this afternoon. All of the debris shown is OUTSIDE of the fence line along John St. and as can be seen the entire rear of the building INSIDE the fence line is clear of any debris.

Is there reason to invest time in a hearing when the photos attached are so clear?? Incidentally, the photos that I have also show what appears to be a bicycle part leaning against the OUTSIDE of the fence as can be seen in the video that you sent me.

Thanks for your help and I hope we can bring this to a speedy resolution.

Please advise any questions you may have.

If you agree that there is no need for a hearing I would appreciate a document referencing the resolution to this matter based on the evidence shown.

Thanks, again.

Bert Guinee
