Subject: RE: Roger W Stadler - 1122 Jackson Street 12/31/2020 Deadline For Removal of Greenhouse

Importance: High

Ms. Stadler,

I take that back. I will consult with the hearing officer and will get back to you. Please note that Ms. Zimny sent a letter dated May 21, 2020 stating that no further extensions will be granted if not met by December 31, 2020 and inspector will take additional enforcement action.

Ms. Mai Vang and Ms. Janie Vang:

Please forward the letter below to Ms. Marcia Moermond and Ms. Amy Brendmoen, respectively, for attention or advise me of their current e-mail addresses so I can do so. My e-mail was not delivered because of invalid e-mail addresses. Thank you for doing so and for confirming receipt of this e-mail. Take care and have a happy healthy holiday.

Diane Stadler

Dear Ms. Moermond & Ms. Brendmoen:

I am writing this letter to express my concern over the fact that the COVID Pandemic has continued to rage this entire year, and my brother faces a deadline of 12/31/2020 regarding his property at 1122 Jackson Street.. I am requesting that, under these unusual and serious circumstances, you reconsider the decision made in regard to my brother Roger Stadler, in removing his greenhouse from his property.

As you know, this case has been going on for quite some time during which Roger has suffered from many physical problems but has complied with all other demands. It has taken a considerable toll on him physically and emotionally, and for what reason? The greenhouse has withstood some of the worst summer and winter weather we've had in the past 18+ years without any damage – there isn't even a tear in the material covering the steel supports. A report was submitted by an accredited engineer, Brian Dobie, PE,CV, at a hearing over a year ago which indicated that the structure, which is only used by Roger and myself, continues to be sturdy.

I lived in St Paul for most of my life and am familiar with the neighborhoods. Roger has lived in his house on Jackson Street for 45 years and has endured crime (of which he has been a victim more than once), and I've seen the lack of respect for property by some people living near him. Roger has tried to improve his property by allowing his Mother, when she was living, and myself to plant flowers and vegetables in a garden on his property. For the ease in doing so, and getting an early start, the greenhouse was built. And I use it as I continue to garden there ...

In just the past 6 years, as has been indicated in previous correspondence and hearings, Roger has persevered through several surgeries and illnesses – a cancer surgery, chemotherapy, 10 trips to the ER including 2 week-long hospitalizations over a period of 12 months, then an ileostomy. All this time he has also had to continue to run his small business with 2 elderly employees. Since this situation with the City began Roger has suffered a stroke, seizures and cardiac arrest. He is 77 years old ... What is the reasoning for using so much of the City's time and money on this situation? In this time of COVID and increase in violence in the city, there must be more important conditions which require its focus. Is this greenhouse really a significant problem?

In addition, there is no way Roger could, if he wanted to, remove the greenhouse on his own, he would have to have help, and at a time when the COVID Pandemic has prevented even families from seeing each other, and when people are suffering severe economic difficulties. this just isn't possible.

It is my hope that you will give this situation (of a life-time St. Paul resident) renewed consideration. I hope that you both, along with your families, enjoy good health and are able to enjoy the Holiday Season.

Thank you for your attention.
